This catalog provides a list of the 92101A software modules and the media on which the software modules are distributed. The purpose of the list is to define the software modules currently supported with the product and to indicate the part numbers of different media on which these modules reside.

You will find several uses for this catalog. For example, you can use it to:

- order replacement software on the media type you need.
- find the software residing on any media type.
- determine the names of files on the media's directory.
- determine the date code of the modules.
- determine part numbers of modules.

This catalog contains a listing of the modules by file name. The column headings of the list define:

| | |
|-------------|--|
| FILENAME | The unique, 6-character file name of the software module. The file names are the names used in the file directory of any medium which contains more than one software module (for example, an RTE FMP disc directory or a mini-cartridge directory). |
| PART NUMBER | The part number of the software module; the paper tape part number of the software module. |
| REV. | The software revision of the module. |
| TYPE | The file type: R is for relocatable and S is for source. |
| DESCRIPTION | A concise definition of the software module. |

Software modules are distributed on the following media:

| | |
|----------------|--|
| Paper Tape | The number of the software module is the same as the paper tape part. |
| Mini-Cartridge | A collection of software parts stored as files on mini-cartridges, part numbers 92101-13301 and 92101-13302. The first file in each mini-cartridge is the directory. |

| %BBUFF | 92101-16034 | 2140 | R | BUFFER FOR MNEMONIC TABLE |
| %DTRAP | 92101-16035 | 2140 | R | DUMMY TRAP MODULE |
| %TSKSC | 92101-16013 | A | R | TASK SCHEDULER |
| &BBUFF | 92101-18034 | 2140 | S | BUFFER FOR MNEMONIC TABLE |

LIST OF SOFTWARE MANUALS

* The following is a list of the 92101A software manuals.
 * The print date shown is the most current version of the
 * manuals for the date code shown above. This date is
 * for the edition or the latest update. If you have a
 * reprinted manual, it will have the same print date as
 * the last update which was incorporated into the reprint.

| SOFTWARE MANUALS | P/N | EDITION | UPDATE # | PRINTED EDT/UPDATE |
|------------------|-------------|---------|----------|-----------------------|
| BASIC/1000D REF | 92060-90016 | 6 | 4 | 10/81 |
| BASIC/1000D SNC | 92101-90001 | N/A | N/A | 10/81 |
