# READER COMMENT CARD

System Technology Division

HP-UX Documentation Guide

Manual Part Number 92453-90009 November 1988

A reader comment card helps us improve the readability and accuracy of the document. It is also a vehicle for recommending enhancements to the product or manual. Please use it to make improvements.

SERIOUS ERRORS such as technical inaccuracies that may render a program or a hardware device inoperative should be reported to your HP Response Center or directly to a Support Engineer. An engineer will enter the problem on HP's STARS (Software Tracking and Reporting System). This will ensure that critical and serious problems receive appropriate attention as soon as possible.

# Printing History

---

New editions are complete revisions of the manual. Update packages, which are issued between editions, contain additional and replacement pages to be merged into the manual by the customer. The date on the title page and back cover of the manual changes only when a new edition is published. When an edition is reprinted, all the prior updates to the edition are incorporated. No information is incorporated into a reprinting unless it appears as a prior update.

# Preface

---

The *HP-UX Documentation Guide* describes the manual set for the HP 9000 Series 800 computers. Read this manual first when you receive your new system.

The first chapter is an introduction to this documentation guide.

The second chapter is a graphical display of all the manuals in the manual set. Manuals are ordered by skill level and related tasks.

The third chapter contains detailed information on each manual.

Some of the manuals in this guide reference UNIX and VAX, as well as other terms. UNIX and System V are registered trademarks of AT&T in the U.S.A. and other countries. DEC and VAX are trademarks of Digital Equipment Corporation.

## Index

# Introduction

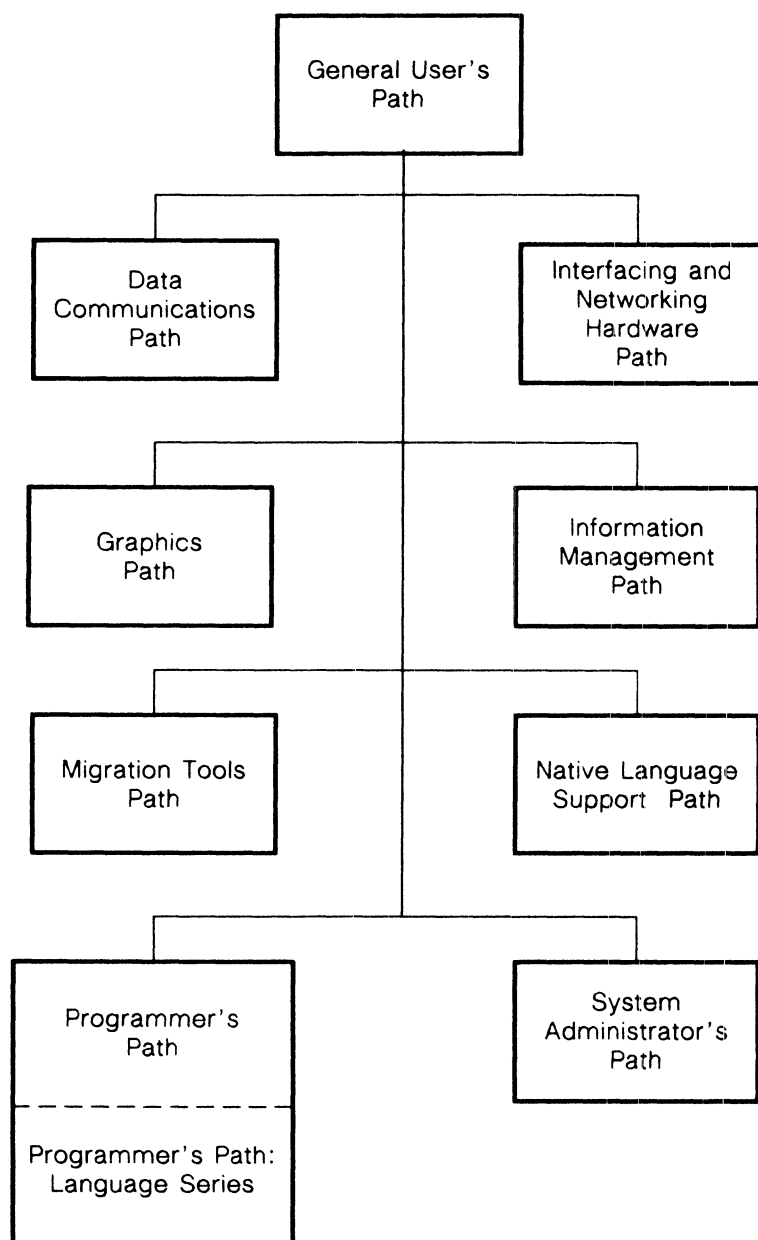

---

Every time you use your computer you may need to use the documentation. How do you know which manuals to read? On the computer, your files are organized in a certain way; that structure allows you to know where they are and find them quickly. This manual organizes the manual set so you will know where to find the information you need.

This *Documentation Guide* is the first manual you should read in the HP-UX manual set. It shows how the other manuals fit together and what material is covered in each manual.

The *Documentation Guide* contains three chapters, including this introduction. Chapter 2 is a set of Manual Maps and Chapter 3 is a Manual List. The Manual Maps illustrate the manual set in a flowchart style. They lead you through a path of manuals that relate to the skills that you are learning. The Manual List gives you overview information for each manual.

# Manual Maps

---

## Introduction

Manual maps show you how the documentation set is laid out. As flowcharts they show the order of the manual set. The manual maps are divided into "paths"; a set of skills defines each path. The manual map begins with the General User's Path (where all users will start). Some manuals are listed in more than one path to reflect overlapping skills.

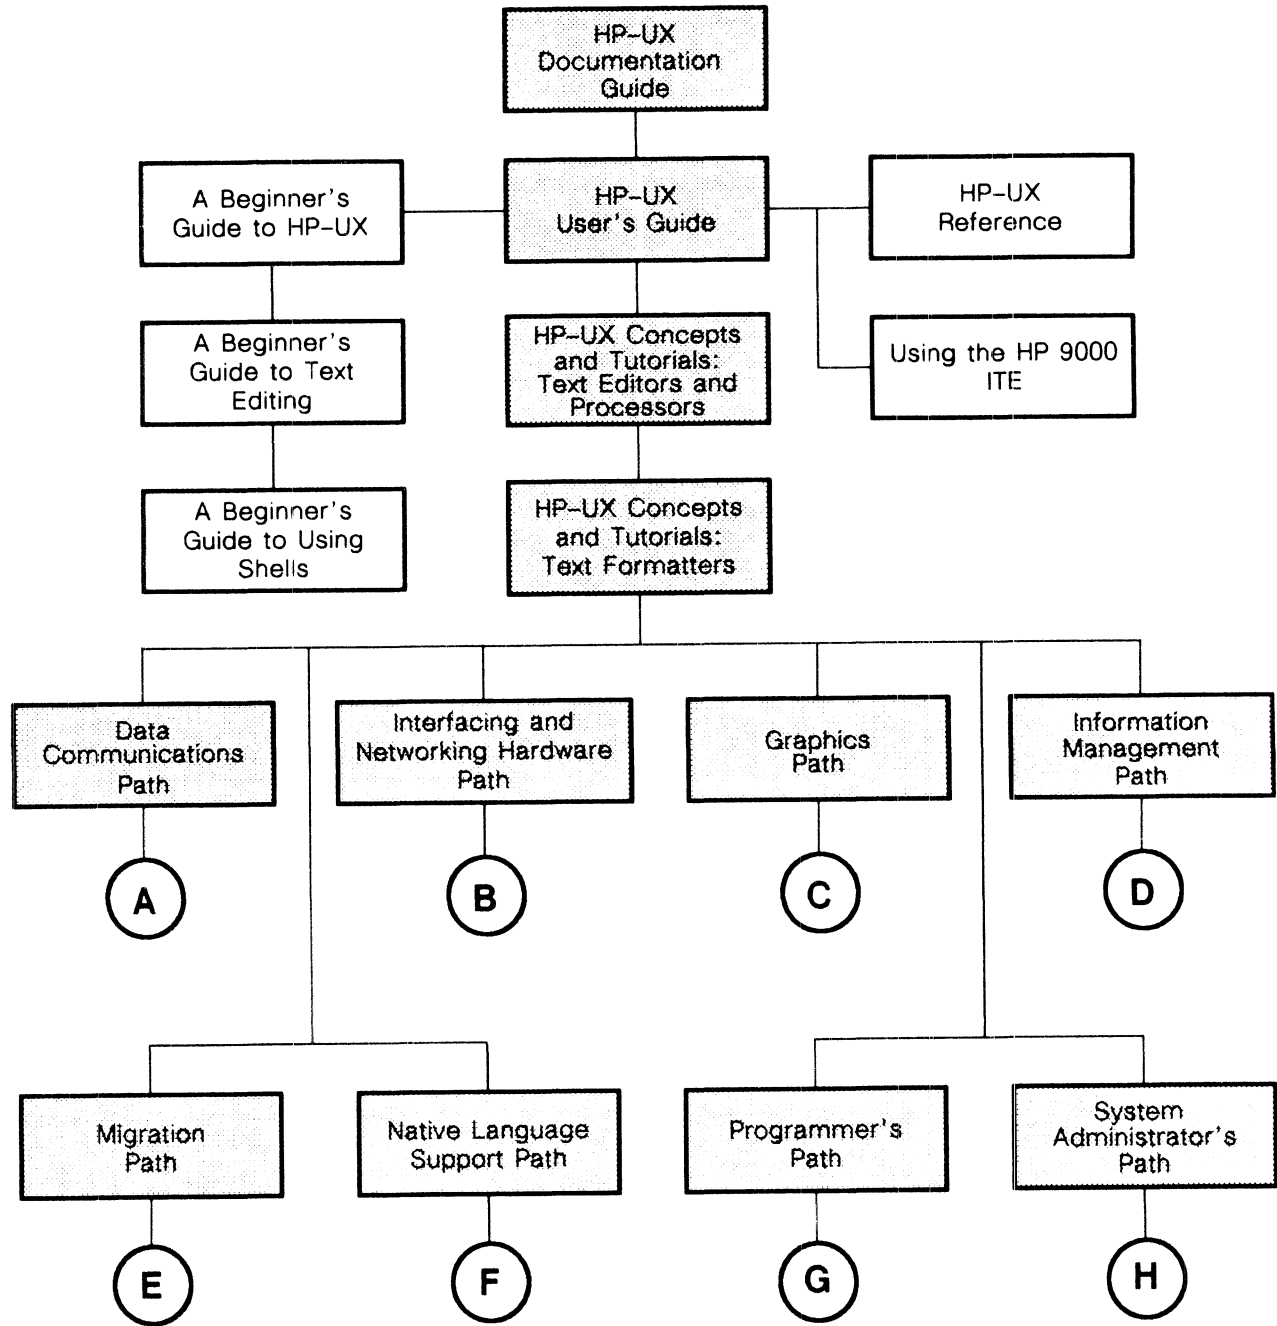

The manual maps show you two types of manuals: manuals you need to read to become a proficient user, and optional skills manuals. Required reading manuals teach skills that are essential to your growth as an HP 9000 Series 800 user. Reference guides are useful when you need a more detailed reminder. Optional skills manuals will broaden your knowledge of your system.

The manuals you should read to become proficient in each skill area are shown on the manual maps by shaded boxes. These manuals are generally user guides or tutorials.

Reference manuals are shown on the sides of the maps. These are supplementary guides that you will find useful in day-to-day operations. These manuals are optional reading. Also optional are manuals that present different skills; you may read all, none, or some of these manuals.

# Manual List

---

## Introduction

The manual lists show you the manual set divided into groups of user skills. These groups of skills are called "series". The series and the manuals within them are in the same order as the manual maps in Chapter 2. The manual list contains the manual title, manual series, part number, intended audience, the abstract, and the table of contents.

The following series divisions are used in the manual list:

- General User's Series
- Data Communications Series
- Interfacing and Networking Hardware Series
- Graphics Series
- Information Management Series
- Migration Series
- Native Language Support Series
- Programmer's Series
- Programmer's Series: Languages
- System Administrator's Series

## Audience

The audience specification of the manual list gives the background skill level of the potential reader.

- A General User is any user. A manual written for a General User assumes no particular skill level. The General User's skill level is complete after learning the skills contained in the General User's Path (or Series) manuals.
- An Experienced User is a user who has learned the skills that are presented in the General User's Path (or Series).
- A Programmer is a user who has worked less than six months as a programmer. A manual written for a Programmer assumes basic knowledge of HP-UX, an editor, the linking and execution process, and a programming language.
- An Experienced Programmer is a programmer with more advanced skills and working knowledge. A manual written for an Experienced Programmer assumes that all the basic skills required for a Programmer are known in depth.
- A System Administrator is a user who has had training or experience as a member of the systems operations staff.
- A Network Manager is a user who has experience in using and setting up a computer network.
- A Database Administrator is a user who has experience in using and setting up a database system.
- HP Field Engineers are Hewlett-Packard personnel who may help you with hardware installation.

## Manual Information

The abstract of each manual contains a short paragraph that gives an overview of the manual.

The table of contents from each manual shows you chapter or section titles and topics. Some manuals do not have chapters or sections and are arranged by topics. This information lets you explore the manuals before you pull them off your shelf.

## General User's Series

Manual Title	Audience
<i>A Beginner's Guide to HP-UX</i> (98594-90000)	General Users
<i>A Beginner's Guide to Text Editing</i> (98594-90010)	General Users
<i>A Beginner's Guide to Using Shells</i> (98594-90020)	General Users
<i>HP-UX Concepts and Tutorials: Text Editors and Processors</i> (97089-90022)	General Users
<i>HP-UX Concepts and Tutorials: Text Formatters</i> (97089-90032)	General Users
<i>HP-UX Reference</i> (92453-90016)	Experienced HP-UX Users and Programmers
<i>HP-UX User's Guide</i> (92453-90001)	General Users
<i>Using the HP 9000 ITE</i> (92453-90011)	General Users

# **A Beginner's Guide to HP-UX**

## **GENERAL USER'S SERIES**

**PART-NUMBER:** 98594-90000

**AUDIENCE:** General Users

This book introduces the fundamental concepts of HP-UX. It is designed to teach these concepts through descriptions and examples.

**Chapter 1: Introduction**

**Chapter 2: Getting Started: Your First Work Session**

**Chapter 3: Working with Files**

**Chapter 4: Organizing Your Files: Directories**

**Chapter 5: Command Syntax and the On-Line Reference**

**Chapter 6: Sending and Receiving Mail**

# **A Beginner's Guide to Text Editing**

## **GENERAL USER'S SERIES**

**PART-NUMBER:** 98594-90010

**AUDIENCE:** General Users

This guide provides information on the editor of choice for HP-UX users, vi. Basic commands for entering, modifying, and saving text are presented along with some more advanced topics, such as moving and copying text, and searching for and replacing text patterns.

### **Chapter 1: Introduction**

### **Chapter 2: Using vi: An Introductory Tutorial**

### **Chapter 3: A Closer Look at Editing with vi**

### **Chapter 4: Moving and Copying Text**

### **Chapter 5: Searching for Patterns in Files**

### **Chapter 6: Setting Your vi Environment**

# **A Beginner's Guide to Using Shells**

## **GENERAL USER'S SERIES**

**PART-NUMBER:** 98594-90020

This guide introduces the role of the shell in an HP-UX system. Concepts common to all shells are discussed, and features unique to each shell are briefly introduced.

### **Chapter 1: Introduction**

### **Chapter 2: An Overview of Shells**

### **Chapter 3: Expanding Your Use of the Shell**

### **Chapter 4: Setting Up Your Shell Environment**

### **Chapter 5: Example Login Scripts**

# **HP-UX Concepts and Tutorials: Text Editors and Processors**

## **GENERAL USER'S SERIES**

**PART-NUMBER:** 97089-90022

**AUDIENCE:** General Users

This manual describes the text editors and processors that are a basic part of HP-UX. These editors include: edit (an interactive editor), ex (extended editor, it has more features than edit), vi (a display oriented text editor), sed (a non-interactive stream editor), and awk (a programming language for manipulating text and data files).

### **Section 1: Introduction to Text Editors and Processors**

#### **Section 2: Regular Expressions**

- Introduction
- Where are REs Used
- Simple Matches

#### **Section 3: The Vi/Ex Editor**

- Introducing the Vi/Ex Editor
- Starting and Ending a Session
- Basic Editing: Cursor and Display Control
- Basic Editing: Manipulating Text
- Intermediate Editing: Using Text Objects
- Intermediate Editing: Copying and Moving Blocks of Text
- Intermediate Editing: Search and Replace Operations
- Intermediate Editing: Editing Multiple Files
- Intermediate Editing: File Manipulation Techniques
- Using Ex Commands
- Advanced Editing: Shell Operations
- Editor: Configuring the Vi/Ex Editor
- Using Ex

#### **Section 4: sed**

- sed: A Non-Interactive Streaming Editor
- Forming Editor Commands
- Writing Command Scripts

#### **Section 5: Ed**

- The Ed Editor
- Creating an Ordinary File
- Getting Acquainted with Ed
- Moving Around in the File
- Adding, Deleting, and Correcting Text
- Special Ed Commands
- The Shell Interface
- Miscellaneous

## **Section 6: Edit: An Interactive Line Editor**

## **Section 7: Awk: A Programming Language for Manipulating Data**

Introduction

The Command Line

Structure of Awk Programs

Predefined Variables

Output

Details of Awk Programming

Error Messages

Notes on the Design

Notes of Awk Implementation

Annotated Examples

References

# **HP-UX Concepts and Tutorials: Text Formatters**

## **GENERAL USER'S SERIES**

**PART-NUMBER:** 97089-90032

**AUDIENCE:** General Users

This manual describes the nroff text formatter and the formatting macro packages, mm and tbl.

### **Chapter 1: The Nroff/Troff Text Processors**

- Introduction
- Usage
- Summary and Index
- Escape Sequences
- Predefined General Number Registers
- Predefined Read-Only Number Registers

### **Chapter 2: Reference Manual**

- The Basics
- Page Control
- Text Filling and Adjusting
- Vertical Spacing
- Line Length and Indenting
- Macros, Strings, Diversion, and Position Traps
- Number Registers
- Tabs, Leaders, and Fields
- Input and Output Conventions and Character Translations
- More Functions
- Hyphenation
- Output Line Numbering
- Conditional Acceptance of Input
- Environment Switching
- Insertions from the Standard Input
- Input/Output File Switching
- Miscellaneous
- Output and Error Messages
- Tutorial Examples

### **Chapter 3: MM: Memorandum Macros**

- Introduction
- Usage
- Formatting Concepts
- Paragraphs and Headings
- Lists
- Memorandum and Released-Paper Style Documents
- Displays
- Footnotes
- Page Headers and Footers
- Table of Contents and Cover Sheet
- References

### **Chapter 3: MM: Memorandum Macros (cont.)**

- Miscellaneous Features
- Errors and Debugging
- Extending and Modifying MM Macros
- Summary
- Footnote Examples
- Tables

### **Chapter 4: Tbl: A Program to Format Tables**

- Usage
- Input Commands
- Global Options
- Format Section
- Data to be Printed
- Additional Command Lines
- Examples

## **HP-UX Reference**

### **GENERAL USER'S SERIES**

**PART-NUMBER:** 92453-90016

**AUDIENCE:** Experienced HP-UX Users and Programmers

This manual describes all of the commands and subroutines for HP-UX. Each section is arranged in alphabetical order.

**Section 1: Commands and Application Programs**

**Section 1M: System Maintenance Procedures**

**Section 2: System Calls**

**Section 3: Subroutines**

**Section 4: Special Files**

**Section 5: File Formats**

**Section 6: Games (no games are supported)**

**Section 7: Miscellaneous Facilities**

**Section 9: Glossary**

**\*\* There is no Section 8 \*\***

# **HP-UX User's Guide**

## **GENERAL USER'S SERIES**

**PART-NUMBER:** 92453-90001

**AUDIENCE:** General Users

The purpose of this guide is to introduce and define terms covered within the scope of this guide; to provide a novice level tutorial of user tasks; to provide a task oriented tutorial for the experienced system users; and to direct the user to other sources within the HP-UX documentation set for further information.

### **Chapter 1: Introduction to HP-UX**

- Compatibility
- Standard Features
- Realtime Enhancements
- Supported Tools for HP-UX
- Structure of HP-UX
- Chapter Review

### **Chapter 2: The HP-UX File System**

- Files
- Sample Filenames (with and without extensions)
- Directories
- Chapter Review

### **Chapter 3: Before You Begin**

- Manual Conventions
- The System Administrator
- Uppercase and Lowercase Entries
- Frequently Used Keys
- Correcting Typing Errors
- Standard HP-UX Command Format
- Successfully Completed Tasks
- Online Documentation
- Chapter Review

### **Chapter 4: Getting Started Tutorial**

- Tutorial Task Summary

### **Chapter 5: More About HP-UX**

- More on Files
- I/O Redirection
- Pipes and Filters
- Multiple Commands
- Background Execution
- Conditional Execution
- Metacharacters
- Quoting Metacharacters
- Chapter Review

## **Chapter 6: User's Tutorial**

- Creating Shell Scripts
- Concatenating Files
- Sorting Contents of a File
- Comparing File Contents
- Searching for a File
- Receiving and Sending Mail
- Command History
- Chapter Review

## **Chapter 7: Useful Utilities**

- Introduction
- Utilities
- Chapter Summary

# **Using the HP 9000 ITE**

## **GENERAL USER'S SERIES**

**PART-NUMBER:** 92453-90011

**AUDIENCE:** General Users

This manual explains how to use the ITE (Internal Terminal Emulator) with the 4602A keyboard. It is similar to the user manuals for HP terminals.

### **Contents:**

#### **Description of the ITE**

- Keyboard Requirements
- Description of a System Console
- Additional Considerations

#### **Using the Keyboard**

- Character Entry Group
- Numeric Group
- Display Control Group
- Edit Group
- Function Key Group
- System Control Group

#### **The Display**

- Memory Addressing Scheme
- Cursor Sensing
- Cursor Positioning
- Screen Relative Addressing
- Absolute Addressing
- Cursor Relative Addressing
- Combining Absolute and Relative Addressing
- Display Enhancements
- Raster Control
- Accessing Color

#### **Configuring the ITE**

- Configuring Function Keys
- Terminal Configuration Menu

#### **ITE Escape Sequences**

- Sequence Types

# **HP 9000 Series 800 Networking Overview: LAN, X.25, NS, ARPA and NFS**

## **DATA COMMUNICATIONS SERIES**

**PART-NUMBER:** 50980-90021

**AUDIENCE:** General users

This booklet describes the LAN/9000 Series 800 Link software product, the X.25/800 Link product, the Network Services (NS)/9000 Series 800 product, the ARPA Services/9000 Series 800 product, and the NFS Services/800 product.

### **Before You Begin**

- Nodes and Networks
- Routes, Paths, and Protocols
- Network Addresses and Host or Node Names
- Bus Networks
- X.25 Packet Switching Networks
- LAN-to-LAN Routers
- Network Architecture and the OSI Model

### **Networking Software**

- Links and Services
- LAN-Based Overview
- X.25-Based Overview

### **The LAN Product**

- Interprocess Communication
- Diagnostics
- Documentation

### **The X.25 Product**

- Interprocess Communication with Berkeley Sockets
- Diagnostics
- Documentation

### **The NS Product**

- Network File Transfer
- Remote File Access
- Interprocess Communication
- Link Level Access
- Diagnostics
- Documentation

### **The ARPA Product**

- ARPA Services
- Berkeley Services
- Interprocess Communication
- Diagnostics
- Documentation

**The NFS Product**

NFS Services

# **HP-UX SNA3270 and Gateway/SNA3270 Reference Manual**

## **DATA COMMUNICATIONS SERIES**

**PART-NUMBER:** 36590-90000

**AUDIENCE:** Programmers and System Administrators

This manual describes the HP-UX SNA3270 and HP-UX Gateway/SNA3270 products for the HP 9000 Series 300 and Series 800 systems. The manual provides the information to install, configure, and use these SNA3270 products and to perform some basic troubleshooting of the products.

**Chapter 1: Introduction to SNA3270**

**Chapter 2: Using SNA3270**

**Chapter 3: The Keyboard**

**Chapter 4: File Transfer**

**Chapter 5: Installing SNA3270**

**Chapter 6: Identifying the SNA Host Connection**

**Chapter 7: Troubleshooting SNA3270**

**Appendix A: Messages and Codes**

**Appendix B: SNA3270 Product Files**

**Appendix C: Printer Emulation Considerations**

# **HP-UX SNA3770 and Gateway/SNA3770 Reference Manual**

## **DATA COMMUNICATIONS SERIES**

**PART-NUMBER:** 98184-90000

**AUDIENCE:** Programmers and System Administrators

This manual describes the HP-UX SNA3770 and HP-UX Gateway/SNA3770 products for the HP 9000 Series 300 and Series 800 systems. The manual provides the information to install, configure, and use these SNA3770 products and to perform some basic troubleshooting of the products.

**Chapter 1: Introduction to SNA3770**

**Chapter 2: Using SNA3770**

**Chapter 3: Console Facility**

**Chapter 4: Installing SNA3770**

**Chapter 5: Configuring SNA3770**

**Chapter 6: Identifying the SNA Host Connection**

**Chapter 7: Starting and Stopping SNA3770**

**Chapter 8: Managing SNA3770**

**Chapter 9: Troubleshooting SNA3770**

**Appendix A: Messages and Codes**

**Appendix B: SNA3770 Product Files**

**Appendix C: Printer Emulation Considerations**

**Appendix D: SNA3770 Quick Reference**

# **HP-UX SNALink and Gateway/SNALink Manager's Reference Manual**

## **DATA COMMUNICATIONS SERIES**

**PART-NUMBER:** 36592-90000

**AUDIENCE:** Programmers and System Administrators

This manual describes the HP-UX SNALink and HP-UX Gateway/SNALink products for the HP 9000 Series 300 and Series 800 systems. The manual provides the information to install, configure, and use these SNALink products and to perform some basic troubleshooting of the products.

**Chapter 1: Introduction to SNALink**

**Chapter 2: Installing SNALink**

**Chapter 3: Configuring SNALink**

**Chapter 4: Identifying the Host Connection**

**Chapter 5: Starting and Stopping SNALink**

**Chapter 6: Managing SNALink**

**Chapter 7: Troubleshooting SNALink**

**Appendix A: Messages and Codes**

**Appendix B: SNALink Product Files**

**Appendix C: Modem Requirements**

**Appendix D: SNA Host Sense Codes**

**Appendix E: SDLC Card Installation Requirements**

# **HP-UX SNA3179G and Gateway/SNA3179G Reference Manual**

## **DATA COMMUNICATIONS SERIES**

**PART-NUMBER:** B1001-90000

**AUDIENCE:** Programmers and System Administrators

This manual describes the HP-UX SNA3179G and HP-UX Gateway/SNA3179G products for the HP 9000 Series 300 and Series 800 systems. The manual provides the information to install, configure, and use these SNA3179G products and to perform some basic troubleshooting of the products.

**Chapter 1: Introducing HP-UX SNA3179G**

**Chapter 2: Before Using SNA3179G**

**Chapter 3: Using SNA3179G**

**Chapter 4: Installing SNA3179G**

**Chapter 5: Configuring SNA3179G**

**Chapter 6: Troubleshooting SNA3179G**

**Appendix A: SNA3179G Product Files**

**Appendix B: Unsupported IBM Data Stream Constructs**

**Appendix C: Typewriter Keyboard Reference Tables**

**Appendix D: APL Keyboard Reference**

## **HP-UX SNA/9000 Manual Reference Pages**

### **DATA COMMUNICATIONS SERIES**

**PART-NUMBER:** 36592-90003

**AUDIENCE:** End Users and SNA System Administrators

This manual contains the man pages related to the following products.

**HP-UX SNALink and Gateway /SNALink**

**HP-UX SNA3270 and Gateway /SNA3270**

**HP-UX SNA3770 and Gateway /SNA3770**

**HP-UX SNA3179G and Gateway /SNA3179G**

## **Installing ARPA Services/9000 Series 800**

### **DATA COMMUNICATIONS SERIES**

**PART-NUMBER:** 98194-90007

**AUDIENCE:** ARPA Network Managers

This manual is for network managers of the HP 9000 Series 800 systems using the ARPA product. The manual explains how to install, configure and maintain the ARPA product software.

**Chapter 1: Product Overview**

**Chapter 2: Installing ARPA Services/9000 Series 800**

**Chapter 3: Maintaining ARPA Services/9000 Series 800**

**Chapter 4: Internetwork Mail Routing**

**Appendix A: Error Messages**

**Appendix B: Sendmail Files**

# **Installing LAN/9000 Series 800**

## **DATA COMMUNICATIONS SERIES**

**PART-NUMBER:** 98194-90009

**AUDIENCE:** LAN Network Managers

This manual is for network managers of the HP 9000 Series 800 systems using the LAN product. It introduces and explains networking concepts and terminology. The manual also explains how to install, configure and maintain the LAN product software.

**Chapter 1: Product Overview**

**Chapter 2: Networking Concepts**

**Chapter 3: Installing LAN/9000 Series 800**

**Chapter 4: Maintaining LAN/9000 Series 800**

**Appendix A: Network Memory Configuration**

**Appendix B: Error Messages**

**Appendix C: Subnetwork Example**

**Appendix D: Glossary**

# **Installing Network Services (NS)/9000 Series 800**

## **DATA COMMUNICATIONS SERIES**

**PART-NUMBER:** 98194-90008

**AUDIENCE:** NS Network Managers

This manual is for network managers of the HP 9000 Series 800 systems using the NS product. This manual explains how to install, configure and maintain the NS product software.

### **Chapter 1: Product Overview**

### **Chapter 2: Installing NS/9000 Series 800**

### **Chapter 3: Maintaining NS/9000 Series 800**

### **Appendix A: Error Messages**

# **LAN/9000 Series 800 Berkeley IPC Programmer's Guide**

## **DATA COMMUNICATIONS SERIES**

**PART-NUMBER:** 98194-90003

**AUDIENCE:** LAN Programmers

This manual describes BSD IPC in detail for programmers who will be writing distributed application programs.

### **Chapter 1: Overview of BSD IPC**

#### **Chapter 2: BSD IPC Using Stream Sockets**

- Preparing Address Variables
- Writing the Server Process
- Writing the Client Process
- Sending and Receiving Data
- Closing a Socket
- Example Using Stream Sockets

#### **Chapter 3: Advanced Topics for Stream Sockets**

- Socket Options
- I/O Multiplexing with Select
- Nonblocking I/O
- Using Shutdown
- Using Read and Write to Make Stream Sockets Transparent
- Sending and Receiving Out of Band Data

#### **Chapter 4: BSD IPC Using Datagram Sockets**

- Preparing Address Variables
- Writing the Server and Client Processes
- Binding Socket Addresses to Datagram Sockets
- Sending and Receiving Messages
- Closing a Socket
- Example Using Datagram Sockets

#### **Chapter 5: Advanced Topics for Datagram Sockets**

- Specifying a Default Socket Address
- I/O Multiplexing with Select
- Nonblocking I/O
- Using Broadcast Addresses

#### **Chapter 6: Programming Hints**

- Troubleshooting
- Port Addresses
- Using Diagnostic Utilities as Troubleshooting Tools
- Adding a Server Process to the Internet Daemon
- Summary Tables for System and Library Calls

# **LAN/9000 Series 800 LLA Programmer's Guide**

## **DATA COMMUNICATIONS SERIES**

**PART-NUMBER:** 98194-90006

**AUDIENCE:** LAN Programmers

This manual is the primary reference source for programmers who will be writing or maintaining programs that access the LAN linic drivers provided by the LAN/9000 Series 800 product.

### **Chapter 1: LLA Concepts**

- LLA and the OSI Model
- OSI Layer 2
- Device Files
- HP-UX Calls
- NETCTRL and NETSTAT Commands
- ioctl(2) Syntax
- Address Conversion Routines
- LLA Error Codes

### **Chapter 2: Using LLA**

- Opening a Network Device File
- Logging a User-Level Address
- Logging a Destination Address
- Reading Data
- Writing Data
- Synchronizing I/O Operations
- Closing a Network Device File

### **Chapter 3: Network I/O Control Commands**

- Collecting and Resetting Interface Statistics
- Managing Network Addresses
- Resetting an Interface
- Managing Broadcast Packets
- Managing Multicast Packets

### **Chapter 4: LLA Examples**

- File Transfer Program

### **Appendix A: Implementation Differences**

- Network I/O Control Commands

### **Appendix B: LLA Layer 2 Protocols**

- Ethernet Frame Structure
- IEEE 802.3 Frame Structure
- Ethernet and IEEE 802.3 Packet Comparison

## **LAN Reference Pages**

### **DATA COMMUNICATIONS SERIES**

**PART-NUMBER:** 98194-90004

**AUDIENCE:** LAN Programmer's and Network Managers

This kit includes the *LAN Reference Pages* as well as tabs for your other networking reference pages, i.e., the Network Services Reference pages, the ARPA/Berkeley Services Reference pages, and the NFS Services Reference pages. The *LAN Reference Pages* contain manual reference pages for nodal management, logging, tracing, troubleshooting, NetIPC (network interprocess communication), and BSD IPC (Berkeley interprocess communication).

## **Network Services Reference Pages**

**DATA COMMUNICATIONS SERIES**

**PART-NUMBER:** 50951-90031

**AUDIENCE:** Network Managers and All Programmers

This manual is a printed copy of the online NS/9000 Series 800 manual reference pages.

## **NFS Services Reference Pages**

### **DATA COMMUNICATIONS SERIES**

**PART-NUMBER:** 50970-90030

**AUDIENCE:** Experienced HP-UX users who use, program with, and manage the NFS Services Software

This manual contains the reference pages for NFS Services.

# **NS Cross-System Network Manager Reference Manual**

## **DATA COMMUNICATIONS SERIES**

**PART-NUMBER:** 5958-8564

**AUDIENCE:** Network Managers

This manual is a generic reference manual for NS network managers. It is provided as a supplement to the network manager reference manuals. The dual purpose of this manual is to document information specific to network operations across different types of NS systems and to introduce main features in each NS system.

### **Section 1: Introduction**

- Overview
- How the Manual is Organized

### **Section 2: Network Architecture and Components**

- Network Architecture
  - NS/1000 Network Architecture and Components
  - NS3000/V Network Architecture and Components
  - NS3000/XL Network Architecture and Components
  - NS/9000 Series 300, 500 Network Architecture and Components
  - NS/9000 Series 800 Network Architecture and Components
  - DEC VAX Computer NS Architecture

### **Section 3: Network Configuration**

- Common NS Configuration Components
- NS/1000 Configuration
- NS3000/V Configuration
- NS3000/XL Configuration
- NS/9000 Configuration
- DEC VAX Computer NS Configuration

### **Section 4: Network Information Utilities**

- NS/1000 Information Utilities
- NS3000/V Information Utilities
- NS3000/XL Information Utilities
- NS/9000 Information Utilities
- DEC VAX Computer NS Information Utilities

### **Section 5: Quick Verification**

- Setting Up Your Systems
  - HP 1000 Initiator
  - HP 3000 Initiator
  - HP 9000 Initiator
  - DEC VAX Computer Initiator
- Cleaning Up Your Systems
- Troubleshooting Suggestions

## **Section 6: Diagnostics and Troubleshooting**

NS/1000 Diagnostics and Troubleshooting

NS3000/V Diagnostics and Troubleshooting

NS3000/XL Diagnostics and Troubleshooting

NS/9000 Series 300 and 500 Diagnostics and Troubleshooting

NS/9000 Series 800 Diagnostics and Troubleshooting

DEC VAX Computer NS Diagnostics and Troubleshooting

## **Appendix A: Bibliography**

## **Appendix B: System Commands**

## **Appendix C: NS Commands**

## **Appendix D: Network Installation**

NS/1000 Network Installation

NS3000/V Installation

NS3000/XL Installation

NS/9000 Series 300 Installation

NS/9000 Series 500 Installation

NS/9000 Series 800 Installation

DEC VAX Computer NS Installation

# **NS Cross-System NFT Reference Manual**

## **DATA COMMUNICATIONS SERIES**

**PART-NUMBER:** 5958-8563

**AUDIENCE:** NS Programmers and Users

This manual explains NFT operations that involve more than one type of computer.

### **Section 1: Introduction**

- Overview
- Three-Node Model
- File Copying Formats
- Using this Manual

### **Section 2: Initiator Command Syntax**

- NS/1000 DSCOPY Syntax
- NS3000 DSCOPY Syntax
- NS/9000 DSCOPY Syntax
- DSCOPY for the VAX Computer
- PC DSCOPY Command Syntax
- Interchange Format Options
- Common Options
- Special Characters

### **Section 3: HP 1000 Source File**

- RTE-A File System
- Supported Target Nodes

### **Section 4: HP 3000 Source File**

- MPE File System
- Supported Target Nodes

### **Section 5: HP 9000 Source File**

- HP-UX File System
- Supported Target Nodes

### **Section 6: VAX/VMS Source File**

- RMS File System
- Supported Target Nodes

### **Section 7: PC Source File**

- DOS Stream Files
- Supported Target Nodes

### **Appendix A: DSCOPY Examples**

# **Programming and Protocols for NFS Services/800**

## **DATA COMMUNICATIONS SERIES**

**PART-NUMBER:** 50970-90010

**AUDIENCE:** Programmers

This manual contains overviews of Remote Procedure Call (RPC), External Data Representation (XDR) and Yellow Pages. An RPC programming guide is also included, along with protocol specifications for RPC, XDR and YP.

### **Chapter 1: Documentation Overview**

#### **Chapter 2: NFS Services Overview**

- Remote Procedure Call (RPC)
- External Data Representation (XDR)
- Yellow Pages (YP)

#### **Chapter 3: RPC Programming Guide**

- Layers of RPC
- Highest RPC Layer
- Intermediate RPC Layer
- Lowest RPC Layer
- Additional RPC Features
- Additional RPC Examples
- Synopsis of RPC Routines

#### **Chapter 4: XDR Protocol Specification**

- XDR Library Primitives
- XDR Stream Access
- XDR Stream Implementation
- XDR Standard
- Advanced XDR Topics
- Synopsis of XDR Routines

#### **Chapter 5: RPC Protocol Specification**

- RPC Model
- RPC Protocol Requirements
- RPC Message Protocol
- Portmapper Program Protocol

#### **Chapter 6: YP Protocol Specification**

- YP Database Servers
- YP Binders

# **Troubleshooting LAN, NS, ARPA Services/9000 Series 800**

## **DATA COMMUNICATIONS SERIES**

**PART-NUMBER:** 98194-90010

**AUDIENCE:** LAN, NS and ARPA Network Managers

This manual is for network managers of the HP 9000 Series 800 systems using the LAN, NS and/or ARPA products. This manual describes troubleshooting procedures, diagnostic utilities, event logging facilities, and tracing facilities for the network.

**Chapter 1: Overview**

**Chapter 2: Diagnostic Utilities**

**Chapter 3: RLB Diagnostic**

**Chapter 4: Network Event Logging**

**Chapter 5: Network Tracing**

**Chapter 6: Troubleshooting Guidelines**

**Appendix A: Link Level Trace Examples**

**Appendix B: Error Messages**

# **Using and Administering NFS Services/9000 Series 800**

## **DATA COMMUNICATIONS SERIES**

**PART-NUMBER:** 50970-90000

**AUDIENCE:** NFS Users and Network Managers

This manual describes the NFS services and explains common NFS commands. It also tells how to install, configure, maintain and troubleshoot the NFS Services product software. Yellow Pages (YP) configuration, maintenance and troubleshooting is included. This manual contains reference information on NFS Services vs. local HP-UX and migrating from RFA to NFS.

### **Chapter 1: Documentation Overview**

### **Chapter 2: NFS Services Overview**

- NFS Services
- Virtual Home Environment (VHE)

### **Chapter 3: Common Commands**

- Key Terms
- NFS Commands
- Yellow Pages Overview
- YP Commands

### **Chapter 4: Installation**

- Key Terms
- Prepare the System
- Install Software
- Add a Computer to the Network
- Relink Programs

### **Chapter 5: NFS Configuration and Maintenance**

- Key Terms
- Guidelines
- NFS Configuration
- Maintenance

### **Chapter 6: YP Configuration and Maintenance**

- Key Terms
- YP Databases
- YP Commands
- YP Configuration
- Verify YP
- Disable YP
- YP Maintenance

### **Chapter 7: VHE Configuration and Maintenance**

- Configuration Overview
- Configuration
- Configuration Refinements
- VHE Maintenance
- Advanced Usage

## **Chapter 8: Troubleshooting**

Key Terms

Troubleshooting References

Guidelines

Flowchart Format

Troubleshoot NFS

Troubleshoot Yellow Pages

Troubleshoot VHE

## **Appendix A: HP NFS Services vs. Local HP-UX**

### **Migrating from RFA to NFS**

## **Using ARPA Services/9000 Series 800**

### **DATA COMMUNICATIONS SERIES**

**PART-NUMBER:** 50980-90001

**AUDIENCE:** Users of the ARPA and Berkeley Services

This manual contains introductory information on the ARPA and Berkeley services, a user's view of internetwork mailing, and chapters explaining how to use the ARPA and Berkeley services.

#### **Chapter 1: Documentation Overview**

- Manual Overview

- Reference Manual Guide

#### **Chapter 2: Services Overview**

- Introduction

- Getting Started

- The ARPA/Berkeley Services

- Services Listed by Function

- Obtaining General Information

#### **Chapter 3: Sending Mail**

- Introduction

- Using Sendmail

- Sendmail Operations Overview

#### **Chapter 4: Listing Hosts with Ruptime**

- Using Ruptime

- Displaying Ruptime Status Lines

#### **Chapter 5: Listing Users with Rwho**

- Using Rwho

#### **Chapter 6: Logging into a Host with Telnet**

- Using Telnet

- Giving Telnet Commands When Telnet is in Its Input State

- Checking the Behavior of Carriage Returns from a Remote Host

- Disconnecting from a Remote Host and/or Exiting Telnet

- Obtaining Help

- Temporarily Returning to HP-UX on Your Local Host

- Obtaining Telnet Status

- Connecting to a Remote Host When You Invoke Telnet

#### **Chapter 7: Logging into a Host with Rlogin**

- Determining If You Need to Change the Rlogin Escape Character

- Determining What Size Characters to Send with Rlogin

- Using Rlogin

- If you Get Unexpected Results after Logging into a Remote Host

- Logging Out of the Remote Host and Exiting Rlogin

- Temporarily Returning to HP-UX on Your Local Host

- Passing the Rlogin Escape Character to a Remote Program

- Logging into a Remote Host as Someone Else

**Chapter 7: Logging into a Host with Rlogin (cont'd.)**

Giving Other Remote Users Rlogin Access to Your Local Account  
Using Rlogin's "Shorthand" Syntax

**Chapter 8: Transferring Files with Ftp**

Using Ftp  
Disconnecting from a Remote Host and Exiting Ftp  
Obtaining Help  
Temporarily Returning to HP-UX on Your Local Host  
How Ftp Treats "Wild Card" Characters, or Metacharacters  
Performing Directory Operations with Ftp  
Transferring Files with Ftp  
Performing Other File Operations with Ftp  
Obtaining Ftp Status  
Setting Up Automatic Remote Login for Ftp  
The Public Ftp Account  
Specifying Ftp Settings and Connecting to a Remote Host  
When You Invoke Ftp

**Chapter 9: Transferring Files with Rcp**

File Copy Concepts  
Using Rcp  
Performing Copy Operations with Rcp  
Copying Remote Files and Directories as Someone Else on  
the Remote Host  
Giving Other Remote Users Rcp Access to Your Local Account

**Chapter 10: Executing Commands with Remsh**

Using Remsh  
Executing Commands on a Remote Host with Remsh  
Executing More Than One Remote Command with Remsh  
Using Shell Metacharacters with Remsh  
Using Remsh with Remote Commands That Do Not Take Input  
Using Remsh to Execute a Command as Someone Else on a  
Remote Host  
Giving Other Remote Users Remsh Access to Your Local Account  
Using Remsh's "Shorthand" Syntax

# **Using Network Services (NS)/9000 Series 800**

## **DATA COMMUNICATIONS SERIES**

**PART-NUMBER:** 50980-90040

**AUDIENCE:** NS Programmers and Users

This manual defines the rules and procedures for developing and executing programs on an NS/9000 Series 800 system.

### **Chapter 1: Introduction**

- Overview
- Network Architecture
- User Services
- Nodal Management Services and Features
- Node Names

### **Chapter 2: Network File Transfer**

- Overview
- Three-Node Model
- File Copying Formats
- Dscopy Command
- Dscopy Examples
- Security
- Using Escape Characters
- HP-UX Signals
- Errors
- Dscopy Options

### **Chapter 3: Remote File Access**

- Overview
- File System Terminology
- Netunam(1)
- Netunam(3N)
- Accessing Multiple Computers
- Using RFA With a Local Working Directory
- Terminating your Login to a Remote Computer
- Establishing a Remote Working Directory
- Using HP-UX Commands With RFA
- Using HP-UX System Calls With RFA

### **Appendix A: ASCII Character Set**

### **Appendix B: Error Messages**

- Overview
- DSCOPY Error Messages
- Errnet Values

## **Appendix C: NS/9000 Series 800 Migration**

NS/9000 Series 800 for DS/1000-IV Users

NS/1000 to NS/9000 Series 800 Migration

NS/9000 to NS/9000 Series 800 Migration

## Interfacing and Networking Hardware Series

Manual Title	Audience
<i>CIO LAN Interface Controller (LANIC) Installation and Reference Manual</i> (5959-2259)	HP Field Engineers and Network Managers
<i>HP 27110B CIO/HP-IB Interface Card Installation and Reference Manual</i> (27110-90005)	HP Field Engineers and System Administrators
<i>HP 27111A CIO/HP-FL Interface Card Installation and Service Manual</i> (27111-90001)	HP Field Engineers and System Administrators
<i>HP 27114A Asynchronous FIFO Interface Hardware Reference Manual</i> (27114-90001)	HP Field Engineers and System Administrators
<i>HP 98196A Asynchronous 6-Channel Multiplexer Hardware Reference Manual</i> (98196-90002)	HP Field Engineers and System Administrators
<i>LAN Cable and Accessories Installation Manual</i> (5955-7680)	HP Field Engineers and Network Managers

# **CIO LAN Interface Controller (LANIC) Installation and Reference Manual**

## **INTERFACING AND NETWORKING HARDWARE SERIES**

**PART-NUMBER:** 5959-2259

**AUDIENCE:** HP Field Engineers and Network Managers

This manual provides installation, servicing, and troubleshooting information for the IEEE 802.3 LAN Interface Controller (LANIC) card on HP 9000 Series 800 systems that use Channel Input/Output (CIO).

### **Chapter 1: General Information**

- Product Overview
- Link-Level (Station) Address
- Identification
- Specifications
- Test Equipment and Special Tools
- Support Strategy
- Equipment Supplied

### **Chapter 2: Site Preparation**

### **Chapter 3: Installation/Configuration**

- Inspection
- Power Requirements
- Determining the Link-Level Address
- SQE Jumper Setting
- Installation
- Start-Up and Verification
- Installing the Software

### **Chapter 4: Functional Description**

### **Chapter 5: Removal and Replacement**

- LANIC Card and Connector Cable
- Replacing Components on the LANIC Card

### **Chapter 6: Troubleshooting**

- Safety Considerations
- Troubleshooting Strategy
- Maintenance
- Local Area Network Device Adapter Diagnostic
- Running LANDAD

**Chapter 7: Replaceable Parts**

Ordering Information  
Field Replaceable Units

**Chapter 8: Reference**

Technical Manual Reference  
Glossary of Terms

**Chapter 9: Schematics and Diagrams**

**Appendix A: HP 28641A ThinMAU**

**Appendix B: HP 30241A ThickMAU**

**Appendix C: Ethernet**

**Appendix D: Twisted-pair MAU**

# **HP 27110B CIO/HP-IB Interface Card Installation and Reference Manual**

## **INTERFACING AND NETWORKING HARDWARE SERIES**

**PART-NUMBER:** 27110-90005

**AUDIENCE:** HP Field Engineers and System Administrators

This manual describes the installation, servicing, and troubleshooting of the 27110B CIO/HP-IB Card.

### **Chapter 1: General Information**

- Standard Product
- Specifications
- HP-IB Supported Functions

### **Chapter 2: Site Preparation**

### **Chapter 3: Installation**

- Unpacking and Examining the HP-IB Card
- Storage
- General Guidelines for HP-IB Configuration
- Installation and Checkout
- Reshipment

### **Chapter 4: Preventive Maintenance**

- Preventive Maintenance and Cleaning Instructions

### **Chapter 5: Functional Description**

- Overview
- Backplane Interface
- HP-IB Interface
- DMA Requirements

### **Chapter 6: Removal and Replacement**

- Required Tools
- Repair Environment
- Removal and Replacement Procedures

### **Chapter 7: Adjustments**

### **Chapter 8: Troubleshooting**

- Card Self-Test
- LED Interpretation

### **Chapter 9: Replaceable Parts**

- Replaceable Parts
- Ordering Parts

**Chapter 10: Reference**

HP Computer Users Documentation Index

HP-IB Tutorial Description

**Chapter 11: Product History**

**Chapter 12: Diagrams**

# **HP 27111A CIO/HP-FL Interface Card Installation and Service Manual**

## **INTERFACING AND NETWORKING HARDWARE SERIES**

**PART-NUMBER:** 27111-90001

**AUDIENCE:** HP Field Engineers and System Administrators

The HP 27111A is Channel I/O device adapter for connecting an HP Precision Architecture computer to supported peripherals over a fiber optic data link. This manual describes the HP 27111A, including installation, service and troubleshooting information.

**Chapter 1: General Information**

**Chapter 2: Site Preparation**

**Chapter 3: Installation and Configuration**

**Chapter 4: Preventative Maintenance**

**Chapter 5: Functional Description**

**Chapter 6: Removal and Replacement**

**Chapter 7: Adjustments**

**Chapter 8: Troubleshooting and Diagnostics**

**Chapter 9: Replaceable Parts**

**Chapter 10: Reference**

**Chapter 11: Product History**

# **HP 27114A Asynchronous FIFO Interface Reference Manual**

## **INTERFACING AND NETWORKING HARDWARE SERIES**

**PART-NUMBER:** 27114-90001

**AUDIENCE:** HP Field Engineers and System Administrators

This manual provides installation and configuration procedures, principles of operation, parts lists, and schematic diagrams for the HP 27114A Asynchronous FIFO Interface (AFI).

### **Chapter 1: General Information**

- Functional Description
- Equipment Supplied
- Identification
- Test Equipment and Special Tools
- Support Strategy
- Specifications

### **Chapter 2: Site Preparation**

### **Chapter 3: Installation and Configuration**

- Inspection
- Repacking the AFI
- Storage
- Power Requirements
- Cabling Information
- Configuration Switches
- Installation
- Start-Up and Verification
- Installing the Software

### **Chapter 4: Preventive Maintenance**

### **Chapter 5: Functional Description**

# **HP 98196A Asynchronous 6-Channel Multiplexer Hardware Reference Manual**

## **INTERFACING AND NETWORKING HARDWARE SERIES**

**PART-NUMBER:** 98196-90002

**AUDIENCE:** HP Field Engineers and System Administrators

The HP 98196A Asynchronous 6-Channel Multiplexer (with modem control) provides supported HP Channel I/O computers with the ability to connect up to six local or remote peripherals, such as terminals, that conform to RS-232-C or CCITT V.24 and V.28 specifications. This manual describes the HP 98196A, including installation, service and troubleshooting information.

### **Chapter 1: General Information**

- Overview
- Description
- Features and Specifications Table
- Documentation Required for Installation
- Product Identification Information
- Support Strategy
- System Console
- Buffer Capacity

### **Chapter 2: Site Preparation Requirements**

### **Chapter 3: Installation and Configuration**

- Overview
- Unpacking and Examining the PCA
- Checking Power Requirements
- Inserting the Card
- Removing the Card
- Testing the Unit
- Attaching the Cables
- Configuration

### **Chapter 4: Preventive Maintenance**

### **Chapter 5: Functional Description**

- Overview
- Main Sub-assemblies
- Circuit Organization

# **LAN Cable and Accessories Installation Manual**

## **INTERFACING AND NETWORKING HARDWARE SERIES**

**PART-NUMBER:** 5955-7680

**AUDIENCE:** HP Field Engineers and Network Managers

This manual describes how to install the coaxial cable plant for Hewlett-Packard's IEEE-802.3-compatible local area networks. It describes thick and thin coaxial Local Area Network (LAN) cables, connectors, terminators, grounding straps, surge protectors, repeaters, Media Attachment Units (MAUs), thin MAUs, Attachment Unit Interface (AUI) cables, and stub cables. Also included is information on network design and planning.

### **Chapter 1: General Information**

- Scope of This Manual
- LAN Overview
- Network Specifications
- More Information

### **Chapter 2: Planning Considerations**

- Selecting the Cable
- Routing the Cable
- Grounding and Power
- Cable Runs Between Unconnected Buildings

### **Chapter 3: Backbone LAN Cable Installation**

- Backbone LAN Cabling Summary
- Installation Procedures
- Testing the Installed Cable

### **Chapter 4: ThinLAN Cable Installation**

- ThinLAN Cabling Summary
- Installation Procedures
- Testing the Installed Cable

### **Chapter 5: Device Connections**

- General Information
- Connecting Devices
- Fabricating AUI Cables

### **Chapter 6: Cable Verification**

### **Appendix A: Using a TDR**

- General Information
- TDR Test Procedure
- Example TDR Test

**Appendix B: Cable Diagrams**

- LAN Cables
- Repeater Cable
- AUI Cable (802.3)
- Branch Cable (Ethernet)
- Stub Cables and Internal Cables
- SRM Cables

**Appendix C: Configuration Examples****Appendix D: 3Com EtherSeries Networks****Appendix E: SRM Networks**

- Resource Management Multiplexer Link
- Resource Management COAX Link
- Hybrid SRM Networks
- Coax Link and IEEE 802.3 LAN

**Appendix F: Emergency Release for Crimp Tools**

- N Connector Crimp Tool
- BNC Connector Crimp Tool
- D Connector Pin Crimp Tool

# **Advanced Graphics Package Programmer's Manual**

## **GRAPHICS SERIES**

**PART-NUMBER:** 97085-90012

**AUDIENCE:** Graphics Programmer

This manual contains both generic tutorial information concerning Advanced Graphics Package (AGP) and supplemental information which is specific to the HP-UX operating system. This manual also provides AGP subroutine user's and reference information. It contains a user's section and an alphabetical collection of reference pages of the subroutines that make up the Advanced Graphics Package.

### **Overview**

- Introduction
- Device Independence
- Division for the Graphics Task
- Two Step Image Production

### **Concepts**

- Introduction
- Graphics Output Primitives
- Attributes
- Viewing Transformations
- Segments and Output
- Input
- Control

### **Output Primitives**

- General
- Current Position
- 2-D and 3-D Availability
- Move
- Line
- Polyline
- Polygon
- Marker
- Output Primitive Attributes
- General Attributes
- Polygon-Specific Attributes
- Text
- Text Specific Attributes

### **Viewing Transformations**

- General
- Two-Dimensional Viewing Transformation
- Three-Dimensional Viewing Transformation
- Advanced Capabilities

## **Segments and Primitives**

- General
- Segment Creation, Renaming, and Deletion
- Attributes of Segments
- New-Frame-Action

## **Input**

- General
- Button Device
- Keyboard Device
- Locator Device
- Valuator Device
- Pick Device

## **Control**

- General
- Initialization and Termination
- Inquiry
- Timing
- Escape Functions
- Error Handling

## **HP-UX Systems**

- HP 9000 Series AGP Structure
- Programming Languages
- Linking AGP Programs
- Functionality Issues
- Porting

## **HP GKS Device Drivers Library**

### **GRAPHICS SERIES**

**PART-NUMBER:** 98672-90011

**AUDIENCE:** Graphics Programmers

This manual outlines the capabilities and usage of device drivers for the Hewlett-Packard Graphics Kernel System (HP-GKS). This manual is organized around device drivers. The *ANSI GKS Specification* contains the standard specification for GKS. The *HP-GKS User's Guide* contains information specific to the Hewlett-Packard implementation. Knowledge of GKS and HP-GKS as described in these manuals is a prerequisite for using this manual.

# **HP GKS User's Guide**

## **GRAPHICS SERIES**

**PART-NUMBER:** 98672-90000

**AUDIENCE:** Beginning Graphics Programmers

The Hewlett-Packard Graphics Kernel System (HP-GKS) is a subroutine library for 2-dimensional computer graphics programming. HP-GKS is implemented on top of the HP Starbase Graphics Library to take advantage of the Device Drivers and special features of the Starbase System. Knowledge of ANSI GKS, as described in the *ANSI GKS Specification* (ANS-X3.124-1985), is a prerequisite for using this manual. This manual explains the specifics of how Hewlett-Packard implemented those parts of GKS that required implementation decisions.

### **Introduction**

# **Starbase Display List Programmers Manual**

## **GRAPHICS SERIES**

**PART-NUMBER:** 98674-90002

**AUDIENCE:** Graphics Programmers

This manual is for the graphics programmer who will be using the Starbase Display List subsystem. This subsystem is referred to as the "display list" or the "Starbase Display List" throughout the manual.

### **Chapter 1: Introduction**

What is a Display List?

### **Chapter 2: Overview**

Introduction  
Preparation  
Compiling and Linking Display List Programs  
A Simple Example Program in C  
The Progressive Example Program  
Opening and Closing a Display List  
Opening and Closing Segments  
Building a Segment Network  
Displaying Segments and Elements  
Picking  
Editing Segments  
Display List Labels  
Controlling Traversal  
Segment Name and Reference Control  
Deleting Segments  
Inquiring Segment Information  
Application Data  
Starbase State

### **Chapter 3: Functionality**

Opening and Closing Display Lists  
Opening and Closing Display List Segments  
Adding Elements to a Segment  
Display List Labels  
Element Positioning and Type  
Element Deletion  
Copying Segments  
Segment Network Control  
Display and Refresh  
Renaming Segments and References  
Segment Deletion  
Traversal Control  
Picking  
Application Data  
Archive and Retrieval of Segments  
Debugging  
Namesets and Filters  
Notes

## **Appendix A: Special Considerations**

- DC Primitives and Operations
- Function Return Values Lost During Traversal
- Starbase State Segment Open Display Flag FALSE
- Multiple Display List Labels - Same Identifier
- Gescape calls in a Segment
- Z-buffer Loop Count Problems

## **Appendix B: Performance Considerations**

- Performance Improvements

## **Appendix C: Program Listings**

- Stick Man Example Program -- C
- Stick Man Example Program -- Pascal
- Stick Man Example Program -- FORTRAN77
- House Plan Example Program -- C
- Name Set Utility Example Program -- C
- Name Set Utility Example Program -- FORTRAN77
- Name Set Utility Example Program -- Pascal
- Notes

## **Display List Device Driver**

- Device Description
- Setting Up the Device
- Initialization
- Exceptions to Standard Starbase Support

## **Display Reference**

# **Starbase Graphics Techniques**

## **GRAPHICS SERIES**

**PART-NUMBER:** 98592-90076

**AUDIENCE:** Experienced Programmers With Little or No Graphics Experience.

This manual begins with a low-level program which draws a line. It gives a progressive example of how to draw a graph. Later chapters present more advanced topics.

### **Overview: An Overview of Starbase**

Welcome to Starbase

### **Chapter 1: An Introduction to Starbase Graphics**

Actually Doing Something

Why Graphics?

Preparation

The Progressive Example

Scaling

Viewports

Labels

Tic Marks

### **Chapter 2: Functional Review**

Graphics Pipeline

### **Chapter 4: Controlling Starbase**

Introduction

Opening a Device

Clearing the Viewing Surface

Buffer Mode

Bringing the Image Up-to-Date

Error Handling

### **Chapter 5: Output Primitives**

Introduction

Line Primitives

Markers

Text

Polygon Primitives

Raster Operations

Performance Issues

## **Chapter 6: Using Starbase Text**

- Introduction
- The Character Sets
- Writing Text
- The Text Transformations
- Character Reference Points
- Selecting Character Size and Shape
- Text Alignment
- Text Path
- Text Orientation
- Text Density
- More Elegant Fonts
- The Text Rectangle
- Selecting Alternate Character Sets
- Three-Dimensional Text
- Annotation Text
- Matrix Stack Transformations for Text
- Integer Text
- Defining Your Own Character Set

## **Chapter 7: Color Graphics**

- Color!
- Overview of Color Devices
- Controlling Color
- Special Effects
- Effective Use of Color
- Reproducing Color Graphics

## **Chapter 8: Frame Buffer Control and Raster Operations**

- Introduction
- Smooth Image Transitions
- Drawing Modes
- Enabling Selected Planes
- Bank Switching
- Image Blending
- Pixel Pan and Zoom
- Double Buffering
- Block Operations

## **Chapter 9: Starbase Input**

- Introduction
- Initialization for Input
- Graphics Input Devices
- Input Methods
- Graphics Echoes
- Inputs From Other HP-HIL Devices
- Input From a Windows/9000 Window

## **Chapter 10: The Transformation Matrix Stack**

- Introduction
- Why Starbase Supports Other Transformation Matrices
- The "Real" Graphics Pipeline
- 2D Transformation Matrices
- The Starbase Matrix Stack
- Using the Matrix Stack
- 3D Transformation Matrices

**Chapter 10: The Transformation Matrix Stack (cont'd)**  
Perspective  
Three-Dimensional Transformation Examples  
Integer Transformations

**Chapter 11: Picking**  
Introduction  
A Picking Example  
Highlighting  
A Highlighting Example

**Chapter 12: Hidden-Surface Removal**  
Introduction

**Chapter 13: Rendering**  
Introduction  
Depth Cueing  
Shading  
Smooth Shading  
Light Attributes  
Advanced Depth-Cueing  
Back-Facing Polygons  
Surface Coefficients

**Chapter 14: B-Splines**  
Introduction  
What's a B-Spline Look Like, Anyway?  
Knot Vectors  
Three-Dimensional Spline Curves  
Spline Surfaces  
A More Realistic Example  
Rational Splines  
Trimming Curves  
Trimming Curve Examples

**Chapter 15: Storing, Retrieving, and Printing Images**  
Introduction  
Procedures Discussed in this Chapter  
Overview of Capabilities  
Plane vs. Full Depth  
Plane-Major and Pixel-Major Bitmaps  
Bitmap Storage to a File and Retrieval  
Printing Images From Bitmaps or Files

**Chapter 16: The Starbase Memory Driver**  
Introduction  
Creating a Memory Buffer  
The SMD and the Font Manager Library  
Current Frame Buffer Architectures

**Chapter 17: Device-Independent Programming**  
Introduction  
What Does Device Independence Mean?  
Inquiries: Pointers to Elsewhere  
Inquiries: The Frame Buffer  
Inquiries: Determining the Active Device

## **Chapter 17: Device-Independent Programming (cont'd)**

- Inquiries: A Device's Physical Limits
- Viewing
- Isotropic Windows
- Using Windows/9000
- Spooling Graphical Output

## **Chapter 18: Enhancing Performance**

- Introduction
- Switching Attribute Types
- Switching Primitive Types
- Using High-Level Commands
- Specifying Colors
- Buffering Operations
- An Example Program
- Avoiding "Picking Up" the Graphics Cursor
- Turning Semaphore Operations Off
- Rendering
- Using Multiple Output Devices Simultaneously

## **Chapter 19: Using "Escape" Calls**

- Introduction
- Calling "gescape"
- Reading the Hardware Color Map
- ITE Escape Sequences

## **Chapter 20: Computer Graphics Metafile**

- Introduction
- The CGM Routines
- Creating a Metafile
- Example CGM Program
- Creating an Interpreter
- Example Interpreter Program

## **Glossary**

## **Appendix A: Device Initialization**

- Specifying a Device
- Device Initialization Information
- Special Files for "mknod"

## **Appendix B: Example Program Listings**

- Introduction
- Language Comparisons of the "Progressive Example"
- RGB Color Cube Program
- RGB Mechanical Model Program
- CMY Color Cube Program
- HSL Color Cylinder Program
- HSL Mechanical Model Program
- RGB/HSL Color Definition Program
- Luminous Intensity Distribution Curves for Spotlights

## **Appendix C: Quick References**

Roadmap to Starbase Routines

# **ALLBASE/HP-UX HP IMAGE Message Manual**

## **INFORMATION MANAGEMENT SERIES**

**PART-NUMBER:** 36217-90010

**AUDIENCE:** Application Programmers and Database Administrators

This manual explains the causes of warning and error conditions which may occur during use of HP IMAGE. It also presents actions to be taken in response to these warning and error conditions.

### **Chapter 1: Introduction**

- Messages Documented in This Manual
- Using This Manual
- How Messages are Documented
- How Messages are Returned
- Resolving Errors

### **Chapter 2: HP IMAGE Messages**

- HPIUtil Messages
- Library Procedure Call Messages

### **Chapter 3: DBCORE Messages**

### **Chapter 4: Console Messages**

# **ALLBASE/HP-UX HP IMAGE Reference Manual**

## **INFORMATION MANAGEMENT SERIES**

**PART-NUMBER:** 36217-90002

**AUDIENCE:** Application Programmers and Database Administrators

This manual introduces and explains HP IMAGE databases. It also presents concepts associated with database management and access.

### **Chapter 1: Introduction**

- Using this Manual
- What is a Database?
- Features of HP IMAGE
- The Database Environment
- Database Personnel
- Using HP IMAGE
- About the Examples

### **Chapter 2: Database Structure and Security**

- The DBEnvironment
- Database Structure
- Functional Roles of Data Items
- Data Set Types
- HP IMAGE Index Types
- Database Security
- Security for Database Utilities

### **Chapter 3: Database Access and Manipulation**

- Overview of Database Access
- Opening the Database
- Adding Data to the Database
- Retrieving Data From the Database
- Methods of Reading Data
- Updating Data in the Database
- Transactions in HP IMAGE
- Locking Data During Transactions
- Database Structural Information

### **Chapter 4: Creating the DBEnvironment**

- The DBEnvironment
- Recovery and the DBEnvironment
- The DBEnvironment Files
- DBEnvironment Creation Considerations
- Creating the DBEnvironment
- Changing the DBEnvironment Parameters

## **Chapter 5: Creating a Database**

- Overview
- Designing a Database
- Writing the Schema
- Password Definition
- Data Item Definition
- Data Set Definition (Relations)
- Data Set Definition (Manual Master)
- Data Set Definition (Automatic Master)
- Data Set Definition (Detail)
- Processing the Schema
- \$PAGE
- \$TITLE
- Sample Schema for the Inventory Database

## **Chapter 6: Data Manipulation**

- HP IMAGE Procedures/Parameters

## **Chapter 7: Maintaining the DBEnvironment**

- DBEnvironment Maintenance
- Logging
- Backing Up the DBEnvironment
- Backing Up the Log File
- Restoring the DBEnvironment
- Rollforward Recovery
- Recovery Considerations

## **Chapter 8: Maintaining the Database**

- Restructuring the Database
- Moving the Database to Another DBEnvironment
- Improving Database Performance

## **Chapter 9: Using HPIUtil**

## **Chapter 10: HP IMAGE Internal Structures and Techniques**

- Overview of Processes
- HP IMAGE Indexes
- Locking Data
- Space Allocation

## **Appendix A: Sample Programs**

- Sample Pascal Program
- Sample C Program

## **Appendix B: Sample Databases**

- Files in the hpimage Directory
- Files in the sampledb Directory
- Files in the programs Directory
- The creator File
- The schinv File
- Data in the INVTRY Database

## **Appendix C: HP IMAGE Maximum Limits**

# **ALLBASE/HP-UX HP SQL C Application Programming Guide**

## **INFORMATION MANAGEMENT SERIES**

**PART-NUMBER:** 36217-90014

**AUDIENCE:** C Programmers

This manual describes how to write a C program that accesses an HP SQL DBEnvironment. It presumes the reader already has a working knowledge of C and is familiar with the information in the *SQL Reference Manual*.

### **Chapter 1: Introduction**

- HP SQL C Programs
- The HP SQL C Preprocessor
- The Stored Section
- The Compiler and the Linker
- The Executable Program
- Maintaining HP SQL Programs
- The Rest of this Manual

### **Chapter 2: Using the HP SQL C Preprocessor**

- The Preprocessor and Program Development
- Preprocessor Modes
- Preprocessor Input and Output
- Invoking the C Preprocessor
- Preprocessing Errors

### **Chapter 3: Embedding SQL Commands**

- General Rules for Embedding SQL
- Declaring the sqlca
- Declaring Host Variables
- Starting a DBE Session
- Defining Transactions
- Implicit Status Checking
- Terminating a DBE Session
- Defining and Manipulating Data
- Explicit Status Checking
- Obtaining HP SQL Messages

### **Chapter 4: Host Variables**

- Using Host Variables
- Declaring Host Variables

### **Chapter 5: Runtime Status Checking**

- The Importance of Status Checking
- The sqlca
- Approaches to Status Checking

**Chapter 6: Overview of Data Manipulation**

- The Query
- Simple Data Manipulation
- Introducing the Cursor
- Sequential Table Processing
- BULK Table Processing
- Dynamic Operations

**Chapter 7: Simple Data Manipulation**

- Simple Data Manipulation Commands
- Transaction Management
- Program Using SELECT, UPDATE, DELETE, and INSERT

**Chapter 8: Sequential Table Processing**

- Sequential Table Processing Commands
- Transaction Management
- Program Using UPDATE WHERE CURRENT

**Chapter 9: BULK Table Processing**

- BULK Table Processing Commands
- Transaction Management
- Program Using BULK INSERT

**Chapter 10: Dynamic Operations**

- Dynamic Versus Nondynamic Commands
- SQL Commands for Dynamic Operations
- How to Handle Dynamic Non-Queries
- How to Handle Dynamic Queries

# **ALLBASE/HP-UX HP SQL COBOL Application Programming Guide**

## **INFORMATION MANAGEMENT SERIES**

**PART-NUMBER:** 36217-90058

**AUDIENCE:** COBOL Application Programmers

This manual describes how to write a COBOL program that accesses an HP SQL DBEnvironment. It presumes the reader already has a working knowledge of COBOL and is familiar with the information in the *SQL Reference Manual*.

### **Chapter 1: Introduction**

- HP SQL COBOL Programs
- The HP SQL COBOL Preprocessor
- The Stored Section
- The Compiler and the Linker
- The Executable Program
- Maintaining HP SQL Programs
- The Rest of This Manual

### **Chapter 2: Using the HP SQL COBOL Preprocessor**

- The Preprocessor and Program Development
- Preprocessor Modes
- Preprocessor Input and Output
- Invoking the COBOL Preprocessor
- Preprocessing Errors

### **Chapter 3: Embedding SQL Commands**

- General Rules for Embedding SQL
- Declaring the SQLCA
- Declaring Host Variables
- Starting a DBE Session
- Defining Transactions
- Implicit Status Checking
- Terminating a DBE Session
- Defining and Manipulating Data
- Explicit Status Checking
- Obtaining HP SQL Messages

### **Chapter 4: Host Variables**

- Using Host Variables
- Declaring Host Variables

### **Chapter 5: Runtime Status Checking**

- The Importance of Status Checking
- The SQLCA
- Approaches to Status Checking

**Chapter 6: Overview of Data Manipulation**

- The Query
- Simple Data Manipulation
- Introducing the Cursor
- Sequential Table Processing
- BULK Table Processing
- Dynamic Operations

**Chapter 7: Simple Data Manipulation**

- Simple Data Manipulation Commands
- Transaction Management
- Program Using SELECT and UPDATE
- Program Using SELECT, DELETE, and INSERT

**Chapter 8: Sequential Table Processing**

- Sequential Table Processing Commands
- Transaction Management
- Program Using UPDATE WHERE CURRENT

**Chapter 9: BULK Table Processing**

- BULK Table Processing Commands
- Transaction Management
- Program Using BULK INSERT

**Chapter 10: Dynamic Operations**

- Dynamic Versus Nondynamic Commands
- SQL Commands for Dynamic Operations
- How to Handle Dynamic Non-Queries
- How to Handle Dynamic Queries

# **ALLBASE/HP-UX HP SQL Database Administration Guide**

## **INFORMATION MANAGEMENT SERIES**

**PART-NUMBER:** 36217-90005

**AUDIENCE:** Database Administrators

This manual describes how to design, create, and maintain an HP SQL database. The reader should be familiar with relational database concepts and have a working knowledge of HP SQL.

### **Section 1: Introduction**

- DBA Tasks
- HP SQL
- HP SQL Databases
- HP SQL Data Access
- HP SQL Objects
- The hpdb User
- The Organization of This Guide

### **Section 2: Logical Design**

- From Data to Tables
- Table Design
- View Design
- Index Design
- Security Design
- Defining the DBEnvironment Scope

### **Section 3: Physical Design**

- HP SQL Files
- Storage Requirements for DBEnvironment Configuration
- Calculating Database Storage
- Allocating Storage to DBEFiles and DBEFileSets
- Shared Memory Requirements
- Implementing the Design

### **Section 4: Creating Databases**

- Configuring a DBEnvironment
- Creating DBEFileSets and DBEFiles
- Creating Tables
- Creating Views
- Creating Indexes
- Loading Tables
- Command Files

### **Section 5: Managing Security**

- Authority Types
- Who Can Have Authority
- Using DBA Authority
- Granting/Revoking CONNECT Authority
- Granting/Revoking RESOURCE Authority
- Granting/Revoking RUN Authority

**Section 5: Managing Security (cont'd)**

- Granting/Revoking Table and View Authorities
- Controlling Table Access With Views
- Authority Verification

**Section 6: Starting and Terminating a DBE Session**

- The DBECon File
- The DBEnvironment Directory
- Using START DBE
- Connecting to a DBE
- Using Autostart
- Terminating a DBE Session

**Section 7: Logging and Recovery**

- Transactions
- HP SQL Logging
- Backing Up the DBEnvironment
- HP SQL Recovery
- Altering the Log File

**Section 8: Maintenance**

- DBEnvironment Maintenance
- Database Maintenance
- Application Maintenance
- Performance Guidelines

**Section 9: System Catalog****Appendix A: HP SQL Limits**

- System Control Limits
- Space Management Limits
- Logical Data Limits

**Appendix B: Authorities Required by SQL Commands****Appendix C: Syntax Summary**

- Data Types
- Expressions
- Search Conditions
- SQL Commands

**Appendix D: ISQL Command Summary****Appendix E: Sample Database**

- The hpsql Directory Files
- Sample DBEnvironment Files
- Sample Data
- Sample Program Files

**Appendix F: SQLUtil Commands**

# **ALLBASE/HP-UX HP SQL FORTRAN Application Programming Guide**

## **INFORMATION MANAGEMENT SERIES**

**PART-NUMBER:** 36217-90013

**AUDIENCE:** FORTRAN Application Programmers

This manual describes how to write a FORTRAN program that accesses an HP DBEnvironment. It presumes the reader already has a working knowledge of FORTRAN and is familiar with the information in the *SQL Reference Manual*.

### **Chapter 1: Introduction**

- HP SQL FORTRAN Programs
- The HP SQL FORTRAN Preprocessor
- The Stored Section
- The Compiler and the Linker
- The Executable Program
- Maintaining HP SQL Programs
- The Organization of This Manual

### **Chapter 2: Using the HP SQL FORTRAN Preprocessor**

- The Preprocessor and Program Development
- Preprocessor Modes
- Preprocessor Input and Output
- Invoking the FORTRAN Preprocessor
- Preprocessing Errors

### **Chapter 3: Embedding SQL Commands**

- General Rules for Embedding SQL
- Declaring the SQLCA
- Declaring Host Variables
- Starting a DBE Session
- Defining Transactions
- Implicit Status Checking
- Terminating a DBE Session
- Defining and Manipulating Data
- Explicit Status Checking
- Obtaining HP SQL Messages

### **Chapter 4: Host Variables**

- Using Host Variables
- Declaring Host Variables

### **Chapter 5: Runtime Status Checking**

- The Importance of Status Checking
- The SQLCA COMMON Block
- Approaches to Status Checking

**Chapter 6: Overview of Data Manipulation**

- The Query
- Simple Data Manipulation
- Introducing the Cursor
- Sequential Table Processing
- Dynamic Operations

**Chapter 7: Simple Data Manipulation**

- Simple Data Manipulation Commands
- Transaction Management
- Program Using SELECT, UPDATE, DELETE, and INSERT

**Chapter 8: Sequential Table Processing**

- Sequential Table Processing Commands
- Transaction Management
- Program Using UPDATE WHERE CURRENT

**Chapter 9: Dynamic Operations**

- Dynamic Versus Nondynamic Commands
- SQL Commands for Dynamic Operations
- How to Handle Dynamic Non-Queries
- Program Using EXECUTE IMMEDIATE
- Program Using PREPARE and EXECUTE

# **ALLBASE/HP-UX HP SQL Master Index**

## **INFORMATION MANAGEMENT SERIES**

**PART-NUMBER:** 36217-90042

**AUDIENCE:** All HP SQL Users

This manual combines the Tables of Contents of the key documents in the HP SQL manual set for the convenience of the user.

# **ALLBASE/HP-UX HP SQL Message Manual**

## **INFORMATION MANAGEMENT SERIES**

**PART-NUMBER:** 36217-90009

**AUDIENCE:** Application Programmers and Database Administrators

This manual explains the causes of warning and error conditions which may occur during use of SQL, ISQL, or the preprocessors. It also presents actions to be taken in response to these warning and error conditions.

### **Chapter 1: Introduction**

- Types of Messages

- How Messages are Returned

- Using this Manual

- Using the HELP Command

- Using Other Manuals

### **Chapter 2: HP SQL Messages**

# **ALLBASE/HP-UX HP SQL Pascal Application Programming Guide**

## **INFORMATION MANAGEMENT SERIES**

**PART-NUMBER:** 36217-90007

**AUDIENCE:** Pascal Application Programmers

This manual describes how to write a Pascal program that accesses an HP SQL DBEnvironment. It presumes the reader already has a working knowledge of Pascal and is familiar with the information in the *SQL Reference Manual*.

### **Chapter 1: Introduction**

- HP SQL Pascal Programs
- The HP SQL Pascal Preprocessor
- The Stored Section
- The Compiler and the Linker
- The Executable Program
- Maintaining HP SQL Programs
- The Rest of This Manual

### **Chapter 2: Using the HP SQL Pascal Preprocessor**

- The Preprocessor and Program Development
- Preprocessor Modes
- Preprocessor Input and Output
- Invoking the Pascal Preprocessor
- Preprocessing Errors

### **Chapter 3: Embedding SQL Commands**

- General Rules for Embedding SQL
- Declaring the SQLCA
- Declaring Host Variables
- Starting a DBE Session
- Defining Transactions
- Implicit Status Checking
- Terminating a DBE Session
- Defining and Manipulating Data
- Explicit Status Checking
- Obtaining HP SQL Messages

### **Chapter 4: Host Variables**

- Using Host Variables
- Declaring Host Variables

### **Chapter 5: Runtime Status Checking**

- The Importance of Status Checking
- The SQLCA
- Approaches to Status Checking

**Chapter 6: Overview of Data Manipulation**

- The Query
- Simple Data Manipulation
- Introducing the Cursor
- Sequential Table Processing
- BULK Table Processing
- Dynamic Operations

**Chapter 7: Simple Data Manipulation**

- Simple Data Manipulation Commands
- Transaction Management
- Program Using SELECT and UPDATE
- Program Using SELECT, DELETE, and INSERT

**Chapter 8: Sequential Table Processing**

- Sequential Table Processing Commands
- Transaction Management
- Program Using UPDATE WHERE CURRENT

**Chapter 9: BULK Table Processing**

- BULK Table Processing Commands
- Transaction Management
- Program Using BULK INSERT

**Chapter 10: Dynamic Operations**

- Dynamic Versus Nondynamic Commands
- SQL Commands for Dynamic Operations
- How to Handle Dynamic Non-Queries
- How to Handle Dynamic Queries

# **ALLBASE/HP-UX Quick Reference Guide**

## **INFORMATION MANAGEMENT SERIES**

**PART-NUMBER:** 36217-90012

**AUDIENCE:** Application Programmers and Database Administrators

This manual contains commands, syntax, and general information for HP SQL. It presumes that the reader is already knowledgeable about HP SQL functionality and is using this manual as a reference.

### **Chapter 1: SQL Syntax**

- Expressions
- Search Conditions
- SQL Commands

### **Chapter 2: ISQL Syntax**

- Invocation
- ISQL Filenames
- ISQL Commands

### **Chapter 3: HP SQL Data Types**

### **Chapter 4: HP SQL Preprocessors**

- FORTTRAN Preprocessor
- Preprocessor Input and Output
- FORTTRAN Data Type Compatibility
- HP SQL Conversion Rules
- Pascal Preprocessor

### **Chapter 5: SQLUTIL**

- Invocation
- SQLUTIL Commands

### **Chapter 6: HP IMAGE Database Definition Language**

- Database Name Definition Part
- Password Definition Part
- Data Item Definition Part
- Data Set Definition Part
- Schema Processor Commands

### **Chapter 7: HP IMAGE Procedures**

- Calling and HP IMAGE Procedure
- HP IMAGE Procedures

### **Chapter 8: HP IMAGE HPIUtil Commands**

- Invocation of HPIUtil
- HPIUtil

**Chapter 9: HP IMAGE/IQUERY Access Modes and Data Types**

Database Access Modes

Data Types

**Chapter 10: IQUERY Syntax**

Invocation of IQUERY

Clauses

Operators

IQUERY Commands

# **ALLBASE/HP-UX IQUERY Reference Manual**

## **INFORMATION MANAGEMENT SERIES**

**PART-NUMBER:** 36217-90003

**AUDIENCE:** Application Programmers and Database Administrators

This manual describes IQUERY and how to use it. The reader should be familiar with the information presented in the *HP IMAGE Reference Manual* and have a thorough understanding of network architecture.

### **Chapter 1: Introduction to IQUERY**

- What is IQUERY?
- HP IMAGE Database Structure
- The Sample Database
- Database Transactions and IQUERY
- Database Access
- Getting Started With IQUERY
- Organization of This Manual

### **Chapter 2: Selecting Data**

- Introduction to the Data Selection Commands
- Selecting Data Entries
- Using the FIND Command
- Using the LIST Command
- Using the FIND JOIN Command
- Manipulating Select Files

### **Chapter 3: Modifying Data**

- Introduction to the Data Modification Commands
- Using the ADD Command
- Using the DELETE Command
- Using the REPLACE Command
- Using the KEYUP Command
- Using the MIGRATE Command

### **Chapter 4: Reporting Data**

- Introduction to the Data Reporting Commands
- Using the REPORT ALL Command
- Using the REPORT Command
- Using the LIST Command

### **Chapter 5: Executing IQUERY Commands from a File**

- Using an Input File
- Using Command Files
- Executing a File from Another File
- Continuing a Command
- Using IQUERY Commands in a File
- Special Command File Capability

## **Chapter 6: IQUERY Commands**

### **Appendix A: IQUERY Error and Warning Messages**

### **Appendix B: Sample Databases**

- Copying the Files
- Files in the sampledbs Directory
- Creating the Databases
- The creator File
- The schsale
- Data in the SALES Database

# **ALLBASE/HP-UX ISQL Reference Manual**

## **INFORMATION MANAGEMENT SERIES**

**PART-NUMBER:** 36217-90004

**AUDIENCE:** Database Administrators and Application Programmers

This manual describes ISQL and how to use it. ISQL is a facility for executing SQL commands interactively. You can also invoke SQLUtil from ISQL. SQL is a facility for maintaining HP SQL DBEnvironments. The reader should be familiar with basic relational database concepts and have an introductory understanding of HP SQL.

### **Chapter 1: Introduction**

- ISQL
- Uses for ISQL
- Elements of ISQL
- ISQL Command Categories
- Authorization
- ISQL Command Structure
- Reading More About ISQL

### **Chapter 2: Using ISQL**

- Invoking ISQL
- Starting a DBE Session
- Leaving ISQL
- Managing Transactions
- Sources of Commands
- Command Termination
- Prompting Mode
- Aborting Commands
- Special Characters
- SET Options
- Parameters
- Getting Help
- The SELECT Command
- Other SQL Commands
- Data Definition Information
- Data Utility
- Using Command Files
- Using the Command Buffer
- The Command History Buffer
- Profile Files
- The Welcome File
- Synonym Files
- Installing a Module
- Issuing System Commands
- Issuing SQLUtil Commands
- Handling Errors
- Running ISQL From a Script

## **Chapter 3: ISQL Commands**

### **Appendix A: ISQL Command Summary**

### **Appendix B: SQL Syntax Summary**

- Data Types

- Expressions

- Search Conditions

- SQL Commands

### **Appendix C: Sample Database**

- The hpsql Directory Files

- Sample DBEnvironment Files

- Sample Data

- Sample Program Files

# **ALLBASE/HP-UX SQL Reference Manual**

## **INFORMATION MANAGEMENT SERIES**

**PART-NUMBER:** 36217-90001

**AUDIENCE:** Application Programmers, Database Administrators, and Advanced Users

This manual presents the syntax and semantics of SQL. SQL is the language used to define, access, and maintain data in an HP SQL database. The reader should be familiar with basic relational database and programming concepts.

### **Chapter 1: Introduction**

- HP SQL
- HP SQL Databases
- HP SQL Data Access
- HP SQL Objects
- HP SQL Users
- Queries
- SQL Command Categories
- SQL Language Structure
- Reading More About SQL

### **Chapter 2: Using SQL**

- Creating Databases
- Controlling Database Access
- Data Definition
- Starting and Terminating a DBE Session
- Data Manipulation
- Transaction Management
- Application Programming
- Dynamic Preprocessing
- Database Administration

### **Chapter 3: Names**

- Basic Names
- DBEUserIDs
- Owner Names
- Compound Identifiers
- Host Variable Names
- DBEnvironment and DBECon File Names
- System File Names
- Special Names

### **Chapter 4: Data Types**

- Type Specifications
- Value Comparisons
- Overflow and Truncation
- Underflow
- Type Conversion
- Null Values
- Decimal Operations

**Chapter 5: Expressions**

EXPRESSION  
AGGREGATE FUNCTION  
CONSTANT

**Chapter 6: Search Conditions**

SEARCH CONDITION  
BETWEEN PREDICATE  
COMPARISON PREDICATE  
LIKE PREDICATE  
NULL PREDICATE

**Chapter 7: SQL Commands**

**Appendix A: SQL Syntax Summary**

Data Types  
Expressions  
Search Conditions  
SQL Commands

**Appendix B: ISQL Command Summary**

**Appendix C: Sample Database**

Sample DBEnvironment  
Sample Data  
Sample Program Files

# **ALLBASE/NET User's Guide**

## **INFORMATION MANAGEMENT SERIES**

**PART-NUMBER:** 36217-90093

**AUDIENCE:** System Administrators

This user's guide describes how to install and use ALLBASE/NET.

### **Chapter 1: Introduction**

- How DA Works
- Hardware and Software Requirements
- Files Used by DA on the Client Node
- Files Used by DA on the Server Node

### **Chapter 2: Getting Started**

- Installation of DA
- Purpose of DAUtil
- Using DAUtil

### **Chapter 3: Accessing an Alias DBEnvironment**

- Using ISQL
- Using the Preprocessor
- Running an Application Program
- Using ALLBASE/QUERY
- Authorizations
- Connecting to a Remote DBEnvironment

### **Chapter 4: DAUtil Commands**

### **Appendix A: DA File Names**

### **Appendix B: Error Messages**

## Migration Series

Manual Title	Audience
<i>HP FORTRAN 77 / HP-UX Migration Guide</i> (92430-90003)	Experienced FORTRAN Programmers

<i>PORT / RX Reference Manual</i> (92561-90004)	Experienced Programmers
<i>Programming for Portability Guide</i> (92561-90001)	Experienced RTE Programmers

# **HP FORTRAN 77/HP-UX Migration Guide**

## **MIGRATION SERIES**

**PART-NUMBER:** 92430-90003

**AUDIENCE:** Experienced FORTRAN Programmers

This manual explains the differences between FORTRAN 7X (on the HP 1000) and HP FORTRAN 77 (on the HP 9000 Series 800). It also explains how to convert FORTRAN 7X programs and data to HP FORTRAN 77.

### **Chapter 1: Introduction**

#### **Chapter 2: Language Differences**

- Additional Features
- Limitations
- Other Differences
- Changed Features

#### **Chapter 3: Converting FORTRAN 7X To FORTRAN 77**

- FORTRAN Convert Overview
- Automatic Conversion
- Manual Conversion
- Using FORTRAN Convert
- What FORTRAN Convert Does
- Conversion Scripts
- Complete Example

#### **Chapter 4: Convert Migration Checklist**

#### **Chapter 5: Converting HP FORTRAN 77 to FORTRAN 7X**

- FORTRAN Back Convert Overview
- Automatic Conversion
- Manual Conversions
- Using FORTRAN Back Convert
- What FORTRAN Back Convert Does
- Conversion Scripts
- Complete Example

#### **Appendix A: FORTRAN Convert Error Messages**

#### **Appendix B: FORTRAN Back Convert Error Messages**

# **HP Pascal/HP-UX Migration Guide**

## **MIGRATION SERIES**

**PART-NUMBER:** 92431-90004

**AUDIENCE:** Experienced Pascal Programmers

This manual explains the syntactic, semantic, and packing algorithm differences between Pascal/1000, Pascal/9000 and HP Pascal. It explains how to change a Pascal/1000 program to a HP Pascal/HP-UX program.

### **Chapter 1: Introduction**

### **Chapter 2: Differences**

- New Features
- Missing Features
- Changing Features

### **Chapter 3: Source Program Migration**

- Overview
- Missing Features
- Changed Features

### **Chapter 4: Data File Migration**

- File Format Conversion
- ASCII Data Files
- Binary Data Files

### **Chapter 5: Migration Examples**

- Data File Migration

### **Appendix A: Migration Checklist**

### **Appendix B: User-Callable Library Routines**

- New Routines
- Implemented Routines
- Unimplemented Routines

# **Migrating to ALLBASE/HP-UX User's Guide**

## **MIGRATION SERIES**

**PART-NUMBER:** 36217-90008

**AUDIENCE:** Database Administrators and Application Programmers

This manual provides an overview of HP IMAGE features and procedures involved in migrating from IMAGE/1000-I or IMAGE/1000-II to HP IMAGE. The user should be familiar with the RTE-A, RTE-6, or RTE-IVB operating systems on HP 1000, and familiar with the HP-UX operating system on the HP 9000 Series 800. The user should also have a working knowledge of IMAGE/1000-I or IMAGE/1000-II, and at least one high-level programming language.

### **Chapter 1: HP IMAGE Overview**

- HP IMAGE Features
- Overview of Migration Method
- Personnel Requirements for HP IMAGE
- Review Summary

### **Chapter 2: Migration Tools**

- Migration Tools
- Database Migration
- Application Program Migration
- Review Summary

### **Chapter 3: Database Migration Procedure**

- Summary of Database Migration Procedure
- Review Summary
- Review Exercises
- Solutions to Review Exercises

### **Chapter 4: Application Program Migration**

- Procedure Summary
- Application Migration on the HP 9000
- Translator Access Summary
- Direct Access Summary
- Review Summary
- Review Exercises
- Review Exercises Solutions

### **Chapter 5: Query Migration**

- IQUERY
- Migration Process
- Review Summary

### **Appendix A: Migration Guidelines**

### **Appendix B: MAU Output**

### **Appendix C: Error Messages**

### **Appendix D: Glossary**

# **PORT/RX Migration Analysis Utility Manual**

## **MIGRATION SERIES**

**PART-NUMBER:** 92561-90002

**AUDIENCE:** Experienced Programmers

This manual describes the limitations of the Migration Analysis Utility (MAU), how to use the product, how to interpret MAU output, and how to use the MAU dictionary. Error Messages are listed, with their meanings. The Migration Analysis Utility (MAU) analyzes RTE application programs for migration to Real-Time HP-UX.

**PART-NUMBER:** 92561-90003

**AUDIENCE:** Experienced Programmers

The PORT/RX migration package includes the Migration Analysis Utility floating point data format conversion routines, file transfer and conversion utilities, and the RTE emulation software on HP-UX. This manual provides instructions for transporting program source files from RTE to HP-UX and making the needed conversions for compatibility with the emulation software.

### **Chapter 1: Introduction**

- RTE Emulation Implementation
- Review of PORT/RX Components
- Migration Phases
- Multiple Environment Variable
- Migration Example

### **Chapter 2: Transfer Files From RTE to HP-UX**

- Media and Utilities
- Transfer Files
- Rename Source Files

### **Chapter 3: Modify Source Files**

- HP-UX Command Interpreters
- HP-UX for RTE Users
- Editors
- Compilation Scripts
- Emulated File System
- Operating System Consideration
- RTE Features Not Emulated
- Alignment Considerations

### **Chapter 4: Language and Subsystem Specifics**

- FORTRAN
- Pascal
- Assembly Code
- FORMS
- IMAGE

### **Chapter 5: Modify Data Files**

- ASCII Data Files
- Binary Data Files

### **Chapter 6: Run, Debug, and Consider Performance**

- The RTE Command Interpreter Rtesh
- Real-Time Priorities
- Symbolic Debugger xdb
- Performance Considerations

## **Chapter 7: Converting RTE Programs to Native HP-UX**

- Recommended Migration and Conversion Procedure
- Functionality Comparison Table
- Input/Output
- Interprocess Communication
- Resource Management
- Program to System Communication
- Program Control
- Memory Management
- File Management
- Mixing RTE and HP-UX Environments

## **Chapter 8: System Administration**

- PORT/RX Internal Implementation
- Installation Procedure
- PORT/RX Environment Maintenance

## **Appendix A: Troubleshooting**

## **Appendix B: Graphics Compatibility**

# **PORT/RX Reference Manual**

## **MIGRATION SERIES**

**PART-NUMBER:** 92561-90004

**AUDIENCE:** Experienced Programmers

The PORT/RX Reference manual provides descriptions of commands, calls, and tables included in the RTE emulation software on HP-UX. Presented in "HP-UX man page" format, the subject matter is divided into sections.

**Utilities**

**System Library**

**File Management**

**Files and Data Structures**

**Drivers**

# **Programming for Portability Guide**

## **MIGRATION SERIES**

**PART-NUMBER:** 92561-90001

**AUDIENCE:** Experienced RTE Programmers

This guide provides an introduction to the subject of portability, describes programming language differences between RTE and HP-UX, and discusses operating system dependencies. Subsystem considerations include Graphics, IMAGE, and DS/1000-IV.

### **Chapter 1: Introduction**

- Defining Portability
- Commitment to Compatibility

### **Chapter 2: Languages**

- FORTRAN 77
- Pascal
- Macro/1000 and Microcode

### **Chapter 3: Operating System**

- Minimizing Dependencies
- RTE Emulation

### **Chapter 4: Subsystems**

- Graphics
- IMAGE
- DS/1000-IV

## Native Language Support Series

Manual Title	Audience
<i>*Native Language I/O Access User's Guide</i> (92559-90001) (English version)	General Users
<i>*Native Language I/O System Administrator's Guide</i> (92559-90002) (English version)	System Administrators
<i>Kanji Code Book</i> (98861-90003)	General Users who enter Japanese characters
<i>Japanese Input Method Guide</i> (98861-90009)	General Users
<i>Simplified Chinese Code Book</i> (92550-90002)	General Users who enter Simplified Chinese characters
<i>Simplified Chinese Input Method Guide</i> (92550-90001)	General Users
<i>Traditional Chinese Code Book</i> (92552-90002)	General Users who enter Traditional Chinese characters
<i>Traditional Chinese Input Method Guide</i> (92552-90001)	General Users

\*These books have been translated and localized in Japanese, Simplified Chinese, Traditional Chinese, and Korean. Localization consists of adding country specific examples and additional explanations. The part numbers for these translated books are as follows:

<i>Native Language I/O Access User's Guide:</i>	<i>Native Language I/O System Administrator's Guide:</i>
Japanese Version (92557-90004)	Japanese Version (92557-90003)
Simplified Chinese Version (92550-90004)	Simplified Chinese Version (92550-90003)
Traditional Chinese Version (92552-90004)	Traditional Chinese Version (92552-90003)
Korean Version (92555-90004) (The Korean Code and Input Methods information is included in this book)	Korean Version (92555-90003)

# **Native Language I/O Access User's Guide**

## **NATIVE LANGUAGE SUPPORT SERIES**

**PART-NUMBER:** 92559-90001

**AUDIENCE:** General Users

This manual explains how to use the Native Language Input/Output (NL I/O) subsystem on the HP 9000 Series 800 and Series 300 computers. A programming section for advanced users and/or programmers is included. The keyboard functions and input methods for Japanese, Simplified Chinese, Traditional Chinese and Korean are briefly described. In addition, this guide provides a reference section for the NL I/O commands.

### **Chapter 1: Introduction**

- What is Native Language I/O?
- What is Host Conversion?
- How to Use This Manual
- Who Should Read This Manual
- Compatibility and Security Issues
- Definition of NL I/O Terms

### **Chapter 2: Native Language I/O**

- Code Conventions and Translations
- Structure of the NL I/O Modules
- File Directory Structure

### **Chapter 3: Using NL I/O Commands**

- Using the NLIOSTART(UTIL)
- Using the NLIO Command
- Using the NLIOENV Command
- Programming Examples

### **Chapter 4: Reference Section**

- LP(UTIL)
- NLIO(DEV)
- NLIO(UTIL) Command
- NLIOENV(UTIL) Command
- NLIOINIT(ADMIN)
- NLIOSTART(UTIL)
- WDEDIT(UTIL)
- WDUTIL(UTIL)

### **Chapter 5: NL I/O X Window System**

- Setting Up the NL I/O X Window Environment
- The Input Window
- X Library
- X-Ray Library
- Terminal Emulator

### **Chapter 6: Japanese Code Mapping**

- HP-16 to HP-15 Mapping
- HP-15 to HP-16 Mapping

## **Chapter 7: The Kanji Input Window**

## **Chapter 8: Kanji Key Functions**

- Kanji Key
- Romanji/Katakana Key
- Hiragana/Katakana Key
- CONV/NEXT Key
- NOCONV Key
- WORD Key
- AUX Key
- PREV Key
- ERASE Key
- CANCEL (KILL) Key

## **Chapter 9: Japanese Input Methods**

- Setting Up Parameters
- Multiple Phrase Conversion
- Word Conversion
- Single Kanji Conversion
- Code Conversion
- No Conversion
- Control Characters
- Gakushuu

## **Chapter 10: Japanese Input Modes**

- Japanese Input Modes
- Japanese Designation Modes

## **Chapter 11: The User Dictionary**

- System Dictionary
- User Dictionaries
- Setting and Closing a Word Dictionary
- Creating a User Dictionary
- Editing a User Dictionary (WEDIT)
- Maintaining a User Dictionary (WDUTIL)

## **Chapter 12: Simplified Chinese Key Functions**

## **Chapter 13: Simplified Chinese Input Methods**

- Setting Up Parameters
- Simplified Chinese Input Method
- Using the Phonetic or Pinyin Input Mode
- Using the Tsang-Chieh Input Mode
- Using Rapid Tsang-Chieh Input Mode
- Using the Full-Size ASCII Input Mode
- Using the Code Input Mode
- Using the HP-15 Code Input Mode

## **Chapter 14: Traditional Chinese Key Functions**

## **Chapter 15: Traditional Chinese Input Methods**

- Setting Up Parameters
- Traditional Chinese Input Method
- Using the Phonetic or Pinyin Input Mode
- Using the Tsang-Chieh Input Mode
- Using Rapid Tsang-Chieh Input Mode
- Using the Full-Size ASCII Input Mode

**Chapter 15: Traditional Chinese Input Methods (cont'd)**

Using the Telegram Code Input Mode

Using the HP-15 Code Input Mode

**Chapter 16: Korean Key Functions**

**Chapter 17: Korean Input Methods**

Setting Up Parameters

Korean Input Method

Using the Hangul/Hanja Input Mode

Using the Full-Size ASCII Input Mode

Using the Code Input Mode

**Appendix A: Error Messages**

# **Native Language I/O System Administrator's Guide**

## **NATIVE LANGUAGE SUPPORT SERIES**

**PART-NUMBER:** 92559-90002

**AUDIENCE:** System Administrators

This guide tells system administrators how to install the Native Language I/O subsystem on the HP 9000 Series 300 and Series 800 computers. Section I explains how to install Asian language-dependent printers and terminals. Host computer hardware and software requirements are also covered. Japanese, Simplified Chinese, Traditional Chinese and Korean peripherals are covered in separate sections. The following additional fonts are covered in this manual: Japanese, Traditional Chinese and Korean simplex fonts and Japanese designer fonts.

### **Chapter 1: Introduction**

### **Chapter 2: Host Computer System Requirements**

Introduction

Hardware Requirements

Software Requirements

### **Chapter 3: Japanese Host Computer Installation Procedures**

Introduction

Hardware Installation Procedures

Software Installation Procedures

### **Chapter 4: Japanese Terminals**

Introduction

Terminal Installation Procedures

Terminal Configuration Procedures

### **Chapter 5: Japanese Printers**

Introduction

HP 41063A (HP-IB) and HP 35713A Printers

HP 41063A (RS-232C) Printer

HP C1200A (RS-232C) Printer

### **Chapter 6: Japanese Stick Fonts**

Japanese Stick Font Directories

Installing Japanese Stick Fonts

Configuring Japanese Stick Fonts

### **Chapter 7: Japanese Window and FA/FM Fonts**

Font Files for the X Window System

Font Files for FA/FM Libraries

### **Chapter 8: The Japanese Simplex Font**

Introduction

Series 800 Japanese Simplex Font

Series 300 Japanese Simplex Font

**Chapter 9: Japanese Designer Fonts**

Introduction

Japanese Helvetica Font

Japanese Roman Font

**Chapter 10: Simplified Chinese Host Computer Installation Procedures**

Introduction

Hardware Installation Procedures

Software Installation Procedures

**Chapter 11: Simplified Chinese Terminals**

Introduction

Terminal Installation Procedures

Terminal Configuration Procedures

**Chapter 12: Simplified Chinese Printers**

Introduction

HP 41063A (HP-IB) Printer

HP 41063A (RS-232C) Printer

HP C1200A (RS-232C) Printer

**Chapter 13: Simplified Chinese Stick Fonts**

Simplified Chinese Stick Font Directories

Installing Simplified Chinese Stick Fonts

Configuring Simplified Chinese Stick Fonts

**Chapter 14: Simplified Chinese Window Fonts**

Font Files for the X Window System

**Chapter 15: Traditional Chinese Host Computer Installation Procedures**

Introduction

Hardware Installation Procedures

Software Installation Procedures

**Chapter 16: Traditional Chinese Terminals**

Introduction

Terminal Installation Procedures

Terminal Configuration Procedures

**Chapter 17: Traditional Chinese Printers**

Introduction

HP 41063A (HP-IB) Printer

HP 41063A (RS-232C) Printer

HP C1200A (RS-232C) Printer

**Chapter 18: Traditional Chinese Stick Fonts**

Traditional Chinese Stick Font Directories

Installing Traditional Chinese Stick Fonts

Configuring Traditional Chinese Stick Fonts

**Chapter 19: Traditional Chinese Window Fonts**

Font Files for the X Window System

**Chapter 20: Traditional Chinese Simplex Font**

Introduction

Series 800 Traditional Chinese Simplex Font

Series 300 Traditional Chinese Simplex Font

**Chapter 21: Hangul (Korean) Host Computer Installation Procedures**

Introduction

Hardware Installation Procedures

Software Installation Procedures

**Chapter 22: Hangul (Korean) Terminals**

Introduction

Terminal Installation Procedures

Terminal Configuration Procedures

**Chapter 23: Hangul (Korean) Printers**

Introduction

HP C1200A (RS-232C) Printer

**Chapter 24: Hangul (Korean) Stick Fonts**

Hangul Stick Font Directories

Installing Hangul Stick Fonts

Configuring Hangul Stick Fonts

**Chapter 25: Hangul (Korean) Window Fonts**

Font Files for the X Windows System

**Chapter 26: Hangul (Korean) Simplex Font**

Introduction

Series 800 Hangul Simplex Font

Series 300 Hangul Simplex Font

**Appendix A: X10 Window System Files**

Japanese X10 Window System Fonts

Simplified Chinese X10 Window System Fonts

Traditional Chinese X10 Window System Fonts

Korean X10 Window System Fonts

## **Kanji Code Book**

### **NATIVE LANGUAGE SUPPORT SERIES**

**PART-NUMBER:** 98861-90003

**AUDIENCE:** General User who enters Japanese characters

This manual explains how to use Kanji code for host conversion input on the HP 9000 Series 800 and Series 300 computers. This entire manual is written in Japanese.

## **Japanese Input Method Guide**

### **NATIVE LANGUAGE SUPPORT SERIES**

**PART-NUMBER:** 98861-90009

**AUDIENCE:** General User

This manual explains how to use the Japanese input methods for host conversion input on the HP 9000 Series 800 and Series 300 computers. This entire manual is written in Japanese.

## **Simplified Chinese Code Book**

### **NATIVE LANGUAGE SUPPORT SERIES**

**PART-NUMBER:** 92550-90002

**AUDIENCE:** General User who enters Simplified Chinese characters

This manual explains how to use Simplified Chinese code for host conversion input on the HP 9000 Series 800 and Series 300 computers. This entire manual is written in Chinese.

## **Simplified Chinese Input Method Guide**

**NATIVE LANGUAGE SUPPORT SERIES**

**PART-NUMBER:** 92550-90001

**AUDIENCE:** General User

This manual explains how to use Simplified Chinese input methods for host conversion input on the HP 9000 Series 800 and Series 300 computers. This entire manual is written in Chinese.

## **Traditional Chinese Code Book**

### **NATIVE LANGUAGE SUPPORT SERIES**

**PART-NUMBER:** 92552-90002

**AUDIENCE:** General User who enters Traditional Chinese characters

This manual explains how to use Traditional Chinese code for host conversion input on the HP 9000 Series 800 and Series 300 computers. This entire manual is written in Traditional Chinese.

## **Traditional Chinese Input Method Guide**

### **NATIVE LANGUAGE SUPPORT SERIES**

**PART-NUMBER:** 92552-90001

**AUDIENCE:** General Users

This manual explains how to use Traditional Chinese input methods for host conversion input on the HP 9000 Series 800 and Series 300 computers. This entire manual is written in Chinese.

## Programmer's Series

Manual Title	Audience
<i>Advanced UNIX Programming</i> (92453-90007)	Experienced C Programmers

<i>HP Symbolic Debugger Quick Reference Guide</i> (92435-90002)	Experienced Programmers
<i>HP Symbolic Debugger User's Guide</i> (92435-90001)	Experienced Programmers

## **Advanced UNIX Programming**

### **PROGRAMMER'S SERIES**

**PART-NUMBER:** 92453-90007

**AUDIENCE:** Experienced C Programmers

This book by Marc J. Rochkind (Englewood Cliffs, New Jersey, Prentice-Hall, Inc., 1985) describes UNIX system calls and how to use them to access the file system. It also explains how to facilitate multitasking and interprocess communication.

### **Preface**

**Chapter 1: Fundamental Concepts**

**Chapter 2: Basic File I/O**

**Chapter 3: Advanced File I/O**

**Chapter 4: Terminal I/O**

**Chapter 5: Processes**

**Chapter 6: Basic Interprocess Communication**

**Chapter 7: Advanced Interprocess Communication**

**Chapter 8: Signals**

**Chapter 9: Miscellaneous System Calls**

**Appendix A: System V Process Attributes**

**Appendix B: Standard Subroutines**

**Bibliography**

# **HP-UX Concepts and Tutorials: Device I/O and User Interfacing**

## **PROGRAMMER'S SERIES**

**PART-NUMBER:** 97089-90054

**AUDIENCE:** Programmers

This manual presents three topics: Device I/O Library (DIL) Routines, Native Language Support (NLS), and Curses and Terminfo. Each section has its own table of contents, indices, and appendices.

### **Section 1: Device I/O Library (DIL) Routines**

- Interfacing Concepts
- General-Purpose Routines
- Controlling the HP-IB Interface
- Controlling the CPIO Interface
- Series 500 Dependencies
- Series 200/300 Dependencies
- Integral PC Dependencies
- Series 800 Model 840 Dependencies
- Character Codes

### **Section 2: Using Curses and Terminfo**

- Introduction
- Display Data Handling
- Keyboard Input
- Display Highlighting
- Multiple Windows
- Multiple Terminals
- Low-Level Terminfo Usage
- A Larger Example
- Program Routines
- Curses Routines
- Description of Routines
- Terminfo Routines
- Termcap Compatibility Routines

### **Section 3: Series 300/800 Native Language Support**

- Overview
- Introduction to NLS
- Using International Applications
- Administering Prelocalized Software
- Developing International Software
- Native Language Support Library and Commands
- Task Reference of NLS Routines
- Character Representation and Sets
- Peripheral Configuration

# **HP-UX Concepts and Tutorials: Programming Environment**

## **PROGRAMMER'S SERIES**

**PART-NUMBER:** 97089-90042

**AUDIENCE:** Beginning HP-UX Programmers

This tutorial describes how to write programs that interface with the HP-UX operating system in a non-trivial way. This includes programs that use files by name, that use pipes, that invoke other commands as they run, or that attempt to catch interrupts and other signals during execution.

### **Section 1: HP-UX Programming**

- Introduction
- Basics
- The Standard I/O Library
- Low-Level I/O
- Processes
- Signals - Interrupts and All That
- Appendix - The Standard I/O Library

### **Section 2: Using C Library Routines**

- Standard Input/Output Routines
- Math Routines
- String Manipulations
- Date and Time Manipulation

### **Section 3: Lint C Program Checker**

- Introduction
- Error Detection
- Problem Detection
- How to Use Lint
- Directives

### **Section 4: Ratfor: A Preprocessor for a Rational FORTRAN**

- Language Description
- Experience
- Conclusions
- Usage on HP-UX

### **Section 5: The M4 Macro Processor**

- General
- Usage
- Defining Macros
- Arguments
- Arithmetic Functions
- File Manipulation
- System Commands
- Conditionals
- String Manipulation
- Printing

## **Section 6: Yacc – Yet Another Compiler–Compiler**

- Basic Specification
- Actions
- Lexical Analysis
- How the Parser Works
- Ambiguity and Conflicts
- Precedence
- Error Handling
- The Yacc Environment
- Hints for Preparing Specifications
- Advanced Topics
- References
- Appendix A: A Simple Example
- Appendix B: Yacc Input Syntax
- Appendix C: An Advanced Example
- Appendix D: Old Features Supported but Not Encouraged

## **Section 7: The ADB Debugger**

- Command Format
- Displaying Information
- Debugging C Program
- Setting Breakpoints
- Advanced Breakpoint Usage
- Other Breakpoint Facilities
- Maps
- Variables and Registers
- Formatted Dumps
- Patching
- Anomalies
- Command Summary
- Format Summary
- Expression Summary

## **Section 8: C Debugger (cdb)**

- Introduction
- Viewing Commands
- Job Control Commands
- Breakpoint Commands
- Assertion Control Commands and Signal Handling Commands
- Record, Playback, and Other cdb Commands

## **Section 9: Make a Program for Maintaining Computer Programs**

- Introduction
- Basic Features
- Description Files and Substitutions
- Command Usage
- Implicit Rules
- Example
- Suggestion and Warnings
- Appendix: Suffixes and Transformation Rules

## **Section 10: SCCS User's Guide**

- Introduction
- Terms
- Creating SCCS Files
- Removing SCCS Files
- Getting Files for Compilation
- Changing Files (Creating Deltas)
- Restoring Old Versions
- The Help Command
- Auditing Changes
- Files Used by SCCS
- Concurrent Editing
- Saving Yourself
- Using the Admin Command
- Maintaining Different Branches
- SCCS's Protection Facilities
- Using Scs With Make
- Using SCCS on a Multi-User Project
- Quick Reference

## **Section 11: Lex: A Lexical Analyzer Generator**

- Introduction
- Lex Source
- Lex Regular Expressions
- Lex Actions
- Ambiguous Source Rules
- Lex Source Definitions
- Usage
- Lex and Yacc
- Examples
- Left-Context Sensitivity
- Character Set
- Summary of Source Format
- Caveats and Bugs

# **HP-UX Concepts and Tutorials: Shells and Miscellaneous Tools**

## **PROGRAMMER'S SERIES**

**PART-NUMBER:** 97089-90062

**AUDIENCE:** Beginning HP-UX Programmers

This manual covers seven topics: Bourne Shell Programming, C Shell Programming, Korn Shell Programming, BC (Desk Calculator), DC (Desk Calculator), Mailx, and Vt (Virtual Terminal). Each section may have its own table of contents, appendices, or indices.

### **Section 1: The Bourne Shell**

- Using Shell Commands
- Shell Scripts
- Basic Shell Programming
- Advanced Programming
- Detailed Reference
- Appendix A: Helpful Tips for Shell Programmers
- Glossary

### **Section 2: The C Shell**

- Introduction
- HP-UX Standard Shells
- Shell Startup and Termination
- Command History
- Aliases
- Command Substitution
- Metacharacters in csh
- Using Metacharacters as Normal Characters
- Built-In Shell Variables
- Numeric Shell Variables
- File Evaluation
- Csh Commands
- Jobs
- C Shell Scripts
- Subject Index

### **Section 3: The Korn Shell**

- Introducing the Korn Shell
- Starting and Stopping the Shell
- Using Metacharacters
- Aliasing: Abbreviating Commands
- Substitution Capabilities
- Editing Command-lines
- Basic Ksh Programming
- Controlling Jobs
- Advanced Concepts and Commands
- Command Reference

#### **Section 4: BC: An Arbitrary-Precision Desk-Calculator Language**

- Running BC
- Simple Computations With Integers
- Bases
- Scaling
- Functions
- Subscripted Variables (Arrays)
- Control Statements
- Some Details
- Three Important Things
- Notation

#### **Section 5: DC: An Interactive Desk Calculator**

- Synoptic Description
- Detailed Description

#### **Section 6: Mailx**

- Introduction
- Common Usage
- More About Sending Mail
- Additional Features
- Non-Interactive Mail
- Command Line Options
- Message Format
- Glossary
- Summary of Commands, Options, and Escapes

#### **Section 7: Vt: Virtual Terminal**

- Using vt
- Installing vt

# **HP-UX Concepts and Tutorials: UUCP**

## **PROGRAMMER'S SERIES**

**PART-NUMBER:** 97089-90053

**AUDIENCE:** Programmers

This manual describes how to use "HoneyDanBer uucp", an HP-UX facility that transfers files among Series 300 and 800 HP-UX and UNIX systems linked by RS-232-C modem or direct connections.

## **SECTION 1: HDBuucp**

### **Chapter 1: Introduction and Orientation**

- Conceptualizing the Tasks
- Contacting Remote System SAs

### **Chapter 2: Configuring uucp**

- An Overall View of uucp
- Edit rc to Set the Hostname
- Edit passwd to Provide a Login
- Edit inittab to Start a getty
- Edit dialtic or Dialer for Using a Modem
- Edit Systems for Calling Data
- Edit Dialcodes to Supply Phone Strings
- Edit Permissions to Control Systems
- Edit Poll to Provide for Polling Systems
- Edit Devices for Modem Info
- Edit ADMIN for Comments
- Make Device Files for RS-232-C
- Continuing to Setup uucp

### **Chapter 3: Installing uucp Hardware**

- Selecting a Modem or Direct Connection
- Illustrated Typical Connections
- Special Connectors
- Making a Decision and Continuing
- Installing a Phone Line
- Installing An Interface Card
- Installing a Modem

### **Chapter 4: Testing and Using uucp**

- Using cu for an Initial Test
- Trying A uucp Call

### **Chapter 5: Making uucp Work**

- Major Sources of Problems
- The .Log Directory Files
- Debugging With .Admin/errors
- The .Admin/xferstat File
- The DIALLOG file
- Running uucico With Debugging Output

## **Chapter 6: Uucp Files and Structure**

- Examples of uucp Data Transfer
- The Spool Directory
- Library Files
- ADMIN Files
- Binary Files
- The Status Files
- Some Cleanup Scripts
- Forwarding through Several Systems
- The uux Command
- Miscellaneous Commands

## **Chapter 7: Uucp Facility Daemons**

- Running the uucp Utility
- Invoking uucp Daemons

## **Appendix A: Using cu**

- Using cu with a Modem Connection
- Cu with Direct Connection
- After Connecting

## **Appendix B: The X.25 Network**

- Description of X.25
- Configuring uucp for X.25

## **Appendix C: An Arbitrary Quick Procedure**

## **Appendix D: HDBuucp Conversion**

## **SECTION 2: UUCP**

### **Chapter 1: Introduction and Orientation**

- Conceptualizing the Tasks
- Contacting Remote System SAs

### **Chapter 2: Configuring uucp**

- An Overall View of uucp
- Edit rc to Set the Hostname
- Edit passwd to Provide a Login
- Edit inittab to Start a getty
- Edit dialit.c to Accomodate a Modem
- Edit L.sys for Calling Data
- Edit L-dialcodes to Supply Phone Strings
- Edit L.cmds to Specify Commands
- Edit L-devices for Modem Info
- Edit USERFILE to Specify Search Info
- Edit FWDFILE and ORIGFILE for Forwarding
- Edit ADMIN for Comments
- Make Device Files for RS-232-C
- How to Continue

### **Chapter 3: Installing uucp Hardware**

- Selecting a Modem or Direct Connection
- Illustrated Typical Connections
- Special Connectors
- Making a Decision and Continuing

**Chapter 3: Installing uucp Hardware (cont'd)**

- Installing a Phone Line
- Installing An Interface Card
- Installing a Modem

**Chapter 4: Testing and Using uucp**

- Using cu for an Initial Test
- Trying A uucp Call

**Chapter 5: Making uucp Work**

- Major Sources of Problems
- The LOGFILE
- Debugging With ERRLOG
- The SYSLOG file
- The DIALLOG file
- Running uucico With Debugging Output

**Chapter 6: Uucp Files and Structure**

- Examples of uucp Data Transfer
- The Spool Directory
- Library Files
- ADMIN File
- Binary Files
- The Status Files
- Some Cleanup Scripts
- Forwarding through Several Systems
- The uux Command
- Miscellaneous Commands
- Using the Mail Facility

**Chapter 7: Uucp Facility Daemons**

- Running The uucp Utility
- Invoking uucp Daemons

**Chapter 8: Using cu**

- Using cu with a Modem Connection
- Cu with Direct Connection
- After Connecting

**Chapter 9: The X.25 Network**

- Description of X.25
- Configuring uucp for X.25

**Chapter 10: An Arbitrary Quick Procedure**

# **HP Symbolic Debugger Quick Reference Guide**

## **PROGRAMMER'S SERIES**

**PART-NUMBER:** 92435-90002

**AUDIENCE:** Experienced Programmers

This quick reference guide lists and defines the commands used for debugging programs. It should be used with the *HP Symbolic Debugger User's Guide*.

## **Symbolic Debugger Commands**

### **Record and Playback Commands**

#### **Record All Commands**

### **Data Viewing and Modification Commands**

#### **Data Viewing Options**

### **Special and Program Variables**

### **HP-UX Command Line Options**

### **HP-UX Symbolic Debugger Commands**

# **HP Symbolic Debugger User's Guide**

## **PROGRAMMER'S SERIES**

**PART-NUMBER:** 92435-90001

**AUDIENCE:** Experienced Programmers

This manual explains how to debug computer programs on the HP-UX Operating System. It assumes that the user has had some experience with symbolic debuggers and HP-UX.

### **Chapter 1: Program Overview**

- Introduction
- The Operating Environment
- Features and Capabilities
- User Manual Conventions
- Language Conventions

### **Chapter 2: Using the HP Symbolic Debugger**

- Program Preparation
- Debugger Interface
- Beginning a Sample Session
- Specifying Locations
- Viewing Source Code and Moving Within Files
- Using the Step Command
- Searching for a String in Source Code
- Setting Breakpoints
- Displaying and Deleting Breakpoints
- Displaying and Modifying Data
- Limitations

### **Chapter 3: Language Conventions**

- Special Variables
- Finding a Variable
- Expression Conventions
- Procedure Call Conventions
- Command Conventions

### **Chapter 4: Commands**

- Job Control Commands
- File Viewing Commands
- Window Mode Commands
- Single Step Commands
- Assertion Control Commands
- Breakpoint Commands
- Data Viewing Commands
- Data Modifying Commands
- State Viewing Commands
- Stack Viewing Commands
- Signal Control Commands
- Record and Playback Commands
- Macro Facility
- Miscellaneous Commands

## **Chapter 5: Sample Sessions**

- A Sample Session in HP C
- A Sample Session in HP Pascal
- A Sample Session in HP FORTRAN 77
- A Sample Session in Mixed Languages

## **Appendix A: Error Messages**

- User Errors
- HP Symbolic Debugger Errors

## **Appendix B: Debug Differences**

- Program Location
- Command Changes

## **Appendix C: Language Operators**

## **Appendix D: HP-UX Dependencies**

- Compiling and Linking
- Commands
- Debug Installation
- Limitations

## **Appendix E: MPE XL Dependencies**

- Compiling and Linking
- The HP Symbolic Debugger Run String Command
- Debug Installation
- Limitations

## Programmer's Series: Languages

Manual Title	Audience
<i>ADB Tutorial</i> (92432-90002)	Experienced Assembly Language Programmers

## **ADB Tutorial**

### **PROGRAMMER'S SERIES: LANGUAGES**

**PART-NUMBER:** 92432-90002

**AUDIENCE:** Experienced Assembly Language Programmers

This tutorial describes the use of ADB, a program that you can use to debug assembly language programs. It also presents the ADB command format, and explains how to debug C programs, set breakpoints, and use maps. A complete command summary is provided following the tutorial.

**Invocation**

**ADB Command Format**

**Displaying Information**

**Debugging C Programs**

**Maps**

**Variables and Registers**

**Formatted Dumps**

**Patching**

**Debugging Already Running Processes**

**Anomalies**

**Command Summary**

# **Assembly Language Reference Manual**

**PROGRAMMER'S SERIES: LANGUAGES**

**PART-NUMBER: 92432-90001**

**AUDIENCE: Experienced Assembly Language Programmers**

This manual describes the HP-UX Assembler for those programmers who need to write code as close to machine language as possible.

## **Chapter 1: The Assembly Language**

- Assembler Features
- Structure of the Source Program
- Symbols and Constants
- Registers and Register Mnemonics
- Expressions
- Operands and Completers
- Macro Processing

## **Chapter 2: Programming for HP-UX**

- Spaces
- Subspaces
- Location Counters
- Compiler Conventions
- System Calls
- Assembly Listing

## **Chapter 3: Assembler Directives and Pseudo-Operations**

- Assembler Directives
- Programming Aids

## **Chapter 4: The Instruction Set**

- Instruction Operands
- Memory Reference Instructions
- Immediate Instructions
- Branch Instructions
- Computational Instructions
- System Control Instructions
- Assist (Coprocesor) Instructions
- Pseudo-Instructions

## **Chapter 5: Programming Examples**

- Binary Search for Highest Bit Position
- Copying a String
- Dividing a Double-Word Dividend
- Demonstrating the Procedure Calling Convention
- Output of the cc -S Command

## **Chapter 6: Assembling Your Program**

- Invoking the Assembler
- Error Message Catalog
- Linking an Assembly Program

## **Appendix A: Error Messages**

- Warning Messages
- Error Messages
- Panic Messages
- User Warnings
- Limit Errors
- Branching Errors

## **Appendix B: Instruction Summaries**

# **HP C Reference Manual**

## **PROGRAMMER'S SERIES: LANGUAGES**

**PART-NUMBER:** 92434-90001

**AUDIENCE:** Experienced C Programmers

This manual fully describes the C programming language as it operates on all HP computer systems. It includes information about C lexical elements, data types, specifiers, type conversions, expressions, and operators. The manual also describes library routines that perform useful functions and are accessible from HP C programs.

### **Chapter 1: Introduction**

- Syntax Conventions

### **Chapter 2: Lexical Elements**

- Tokens
- Keywords
- Identifiers
- Constants
- Floating-Point Constants
- Integer Constants
- Enumeration Constants
- Character Constants
- String Literals
- Operator Tokens
- Punctuators
- Commands

### **Chapter 3: Data Types and Declarations**

- Program Structure
- Declarations
- Storage-Class Specifiers
- Type Specifiers
- Structure and Union Specifiers
- Enumeration
- Declarators
- Type Names
- Type Definitions Using typedef
- Initialization
- Function Definitions

### **Chapter 4: Type Conversions**

- Usual Unary Conversions
- Usual Binary Conversions
- Arithmetic Conversions

## **Chapter 5: Expressions**

- Operator Precedence
- lvalue and rvalue Expressions
- Primary Expressions
- Postfix Operators
- Array Subscripting
- Function Calls
- Structure and Union Members
- Postfix Increment and Decrement Operators
- Unary Operators
- Prefix Increment and Decrement Operators
- Address and Indirection Operators
- Unary Arithmetic Operators
- The sizeof Operator
- Cast Operators
- Multiplicative Operators
- Additive Operators
- Bitwise Shift Operators
- Relational Operators
- Equality Operators
- Bitwise AND Operator
- Bitwise Exclusive OR Operator
- Bitwise Inclusive OR Operator
- Logical AND Operator
- Logical OR Operator
- Conditional Operator
- Assignment Operators
- Comma Operator
- Constant Expressions

## **Chapter 6: Statements**

- Labeled Statements
- Compound Statement or Block
- Expression and Null Statements
- Selection Statements
- The if Statement
- The switch Statement
- Looping Statements
- The while Statement
- The do Statement
- The for Statement
- Jump Statements
- The goto Statement
- The continue Statement
- The break Statement
- The return Statement

## **Chapter 7: Preprocessor Directives**

- Source File Inclusion
- Macro Replacement
- Conditional Compilation
- Line Control
- Pragmas

## **Chapter 8: C Library Functions**

- Header Files

- Using the Library Functions

- Standard Input/Output Functions <stdio.h>

- The printf Function

- Math Functions <math.h>

- Character Conversion and Classification Macros <ctype.h>

- String Manipulation Functions

- Date and Time Functions <time.h>

- Memory Functions

- General Utilities

## **Appendix A: System-Dependent Information**

- Lexical Elements

- Data Types and Declarations

- Type Conversions

- Expressions

- C Statements

- Preprocessor

- Library Functions and Header Files

## **Appendix B: Syntax Summary**

# **HP C Programmer's Guide**

**PROGRAMMER'S SERIES: LANGUAGES**

**PART-NUMBER:** 92434-90002

**AUDIENCE:** Experienced C Programmers

This manual discusses how to program in the C programming language. It includes information on topics such as storage and alignment comparisons, calling other languages, using the optimizer, and debugging.

## **Chapter 1: Introduction to HP C**

## **Chapter 2: Storage and Alignment Comparisons**

HP C on HP-UX

C Data Types on Other Systems

## **Chapter 3: Calling Other Languages**

HP C and HP Pascal

HP C and HP FORTRAN 77

Examples of Corresponding Types

## **Chapter 4: The Optimizer**

Introduction to the Optimizer

When to Use the Optimizer

Invoking the Optimizer on HP-UX

Level 1 Optimization Modules

Level 2 Optimization Modules

HP C Guidelines for Using the Optimizer

HP C Optimizer Assumptions

What to Do If the Optimized Program Fails

## **Chapter 5: Debugging HP C Programs**

The HP Symbolic Debugger and HP C

Sample Debugging Session

## **Chapter 6: Programming for Portability**

Things to Avoid

Things to Do

Examples

## **Appendix A: Migrating C Programs**

Migrating an Application

Byte Order

Data Alignment

Unsupported Keywords

Unsupported Identifiers

Predefined Macro Names

White Space

Hexadecimal Escape Sequence

Multicharacter Character Constants

Invalid Structure References

Leading Underscore

Library Functions

Floating-Point Format

Bit Fields

Data Storage and Alignment

Typedefs

# **HP C Quick Reference Guide**

**PROGRAMMER'S SERIES: LANGUAGES**

**PART-NUMBER: 92434-90003**

**AUDIENCE: Experienced C Programmers**

This manual is a quick reference to the HP C programming language. It summarizes C language elements, the syntax of statements, and lists the syntax for the commands and compiler directives on HP computers.

## **Chapter 1: HP C Language Elements**

- Keywords
- C Operators
- C Operator Precedence
- Escape Sequences
- Declarations

## **Chapter 2: C Statements**

- Statement Types
- Labeled Statements
- Compound Statements
- Expression and Null Statements
- Selection Statements
- Looping Statements
- Jump Statements

## **Chapter 3: Preprocessor Directives**

## **Chapter 4: Pragmas**

## **Chapter 5: C Library Functions**

- Standard Input/Output Functions
- Math Functions
- Character Conversion and Classification Macros
- String Manipulation Functions
- Date and Time Functions
- Memory Functions
- General Utilities

## **Appendix A: HP-UX Compiler**

- Compiling on HP 9000 Series 800 Computers
- Running HP C Programs

# **HP C/HP-UX Reference Manual Supplement**

**PROGRAMMER'S SERIES: LANGUAGES**

**PART-NUMBER:** 92434-90004

**AUDIENCE:** Experienced C Programmers

This supplement contains all HP-UX specific information on how to use the C programming language. It is intended to be used with the *HP C Reference Manual*.

## **Chapter 1: Compiling and Running HP C Programs**

- Compiling HP C Programs

- Pragmas

- Running HP C Programs

## **Chapter 2: HP C/HP-UX Implementation Topics**

- Data Types

- Volatile Type Specifier

- Bit Fields

- IEEE Floating-Point Standard

- Lexical Elements

- Unreachable Code

- Structures and Unions

- Identifier of Program Scope

- Overflow or Underflow Expressions

- Pointers

- Maximum Size of an Array

- Scope of extern Declarations

- Conversions Between Floats and Doubles

- Statements

- Preprocessor

- The varargs Macros

- Location of Files

## **Chapter 3: Using Intrinsics**

- INTRINSIC Pragma

- INTRINSIC\_FILE Pragma

## **Chapter 4: The Listing Facility**

- Listing Format

- Listing Pragmas

- Listing Options

## **Appendix A: Diagnostic Messages**

- Warning Messages

- Error Messages

- Panic Messages

- Internal Panic Messages

# **HP FORTRAN 77/HP-UX Programmer's Guide**

## **PROGRAMMER'S SERIES: LANGUAGES**

**PART-NUMBER:** 92430-90004

**AUDIENCE:** Experienced FORTRAN Programmers

This manual contains a detailed discussion of selected FORTRAN topics. This manual is intended for experienced programmers who have some familiarity with HP systems, data processing concepts, and the FORTRAN programming language.

### **Chapter 1: Data Storage**

- Variable Types
- Addressing Mode
- The EQUIVALENCE Statement

### **Chapter 2: Formatted Input/Output**

- List-Directed Statements
- Formatted Statements
- Summary of the Descriptors
- Format Specifications
- Alternative Methods of Specifying Input/Output
- Using the Implied DO Loop

### **Chapter 3: File Handling**

- Disc Files
- Internal Files

### **Chapter 4: Subprograms**

- Subroutines
- Functions
- Arguments to Subprograms
- Multiple Entries into Subprograms
- Common Blocks
- Block Data Subprograms
- Using the SAVE Statement

### **Chapter 5: Writing Efficient Programs**

- Compile-Time Efficiency
- Run-Time Efficiency
- Code Space Efficiency
- Data Space Efficiency

### **Chapter 6: Programming for Portability**

- Restricting Programs to the HP FORTRAN 77 Standard
- Using Consistent Data Storage
- Writing Programs That Can Be Easily Modified
- Avoiding Unstructured FORTRAN 77 Features

## **Chapter 7: Introduction to HP-UX**

- Using the MAN Command
- Invoking the Compiler and Linker
- Passing Run-String Parameters to a FORTRAN 77 Program
- File Preconnection and Redirection
- Compiler Options and Directives

## **Chapter 8: Debugging FORTRAN 77 Programs**

- Common Run-Time Errors
- The TABLES Directive
- The RANGE Directive
- Debugging Lines, the DEBUG Directive, and -D Compiler Options
- CATCHEM and RESTOREM for Procedure Traceback
- +T Compiler Option
- The xdb Symbolic Debugger

## **Chapter 9: HP 9000 Series 800 Architecture and FORTRAN 77 Storage Assignment**

- Memory Data Areas
- Local Variables
- Saved Variables
- COMMON
- Summary of the Memory Area Assignment
- Accessing Data
- The ALIAS, LITERAL\_\_ALIAS, and EXTERNAL\_\_ALIAS Directives

## **Chapter 10: Interfacing with Other Languages and the HP-UX Operating System**

- Interfacing with Other Languages
- Interfacing with the HP-UX Operating System
- Communicating Through COMMON

## **Chapter 11: Porting FORTRAN Programs from Other Computer Systems**

- A Common Problem: Implicit SAVE
- Using Short Integers and Short Logicals
- Bit Manipulation with FORTRAN 77

## **Chapter 12: Enhancing the Efficiency of FORTRAN 77 Programs**

- Group Related Routines
- Shift Data from the Data Area to the Stack Area
- Manipulating Large Arrays
- Use the Optimizer

# **HP FORTRAN 77 Quick Reference Guide**

## **PROGRAMMER'S SERIES: LANGUAGES**

**PART-NUMBER:** 5957-4687

**AUDIENCE:** FORTRAN Programmers

This manual is a quick reference guide for the HP FORTRAN 77 programming language. It assumes that the reader has been trained in the FORTRAN language, and is knowledgeable of FORTRAN programming techniques.

### **Chapter 1: HP FORTRAN 77 Elements**

- The HP FORTRAN 77 Character Set
- Special Symbols
- Truth Table for Logical Operators
- Keywords
- Data Types

### **Chapter 2: HP FORTRAN 77 Statements**

- Statement Classification
- How to Use the Syntax Diagrams

### **Chapter 3: HP FORTRAN 77 Intrinsic Functions**

- Arithmetic
- Bit Manipulation
- Character
- Numeric Conversion
- Transcendental
- Miscellaneous

### **Chapter 4: HP FORTRAN 77/V on the HP 3000**

- HP FORTRAN 77/V Commands
- :Run FTN.PUB.SYS Command
- Compiler Directives

### **Chapter 5: HP FORTRAN 77/UX on the HP 9000 Series 500**

- Compiling Programs
- Compiler Directives

### **Chapter 6: HP FORTRAN 77/UX on the HP 9000 Series 800**

- Compiling Programs
- Compiler Directives

### **Chapter 7: HP FORTRAN 77/XL on the Series 900 HP 3000**

- Compiling Programs
- :RUN FTNCOMP.PUB.SYS
- Compiler Directives

# **HP FORTRAN 77/HP-UX Reference Manual**

## **PROGRAMMER'S SERIES: LANGUAGES**

**PART-NUMBER:** 92430-90005

**AUDIENCE:** Experienced FORTRAN Programmers

This manual fully describes HP FORTRAN 77 as it operates on the HP-UX operating system. It provides information on all data types and statements in the language and also describes the compiler diagnostic messages. It also presents tables of intrinsic functions and gives Hewlett-Packard's implementation of the ASCII character set.

### **Chapter 1: Introduction to HP FORTRAN 77**

- The FORTRAN 77 Compiler
- FORTRAN Vocabulary
- Source File Structure
- Page Eject with Cntl-L

### **Chapter 2: Language Elements**

- The FORTRAN 77 Character Set
- Special Symbols
- Keywords
- Symbolic Names
- Comments
- Data Types
- Variables
- Expressions

### **Chapter 3: FORTRAN Statements**

- FORTRAN Statement Format
- Statement Classification
- Order of Statements
- Statements

### **Chapter 4: Input/Output**

- Formatted Input/Output
- Format Specifications
- Format and Edit Descriptors
- Edit Descriptors
- Repeat Specification
- Nesting of Format Specifications
- Unformatted Input/Output
- List-Directed Input/Output
- Namelist-Directed Input/Output

### **Chapter 5: Compiling and Running Programs**

- Compiling FORTRAN Programs
- Listing Format
- Preparing Programs for Execution
- Running FORTRAN Programs
- Using the PROGRAM Statement

**Chapter 6: Run-Time Errors and Exceptions**

- +T Compiler Option
- Procedure Traceback with CATCHEM and RESTOREM
- Trapping Run-Time Errors

**Chapter 7: Interfacing with non-FORTRAN Subprograms and HP-UX**

- FORTTRAN and Pascal
- FORTTRAN and C
- Built-In Functions
- HP-UX System Calls from FORTRAN

**Chapter 8: Compiler Directives**

**Chapter 9: System-Specific Features of HP-UX**

- Using the PAUSE Statement
- System-Specific Limits
- System Intrinsics

**Chapter 10: Using Files in HP FORTRAN 77**

- File Definition and Representation
- File Access
- File Formats
- Scratch Files
- Stream I/O Using FSTREAM
- File Descriptor I/O Using FNUM
- Using FSET
- File Positioning with the BACKSPACE Statement
- End-of-Line Edit Descriptors -- NN, NL, and \$
- Carriage Control

**Chapter 11: Data Format in Memory**

- Integer Format
- Short Integer Format
- Real Format
- Double Precision Format
- Complex Format
- Double Complex Format
- Logical Format
- Short Logical Format
- Character Format
- Hollerith Format
- Byte of Logical\*1 Format

**Appendix A: Compile-Time Diagnostic Messages**

- Compile-Time Diagnostics
- Diagnostic Messages
- Compile-Time Errors
- Compile-Time Warnings
- ANSI Warnings
- Run-Time Errors

## **Appendix B: Intrinsic Functions and Math Subroutines**

- Invoking an Intrinsic Function
- Generic and Specific Function Names
- Summary of the Intrinsic Functions
- Random Number Generator Functions
- HP-UX Intrinsic Functions
- System Calls and Library Routines
- Function Descriptions

## **Appendix C: FORTRAN Comparisons**

- Extensions to the Standard
- Comparison of HP FORTRAN 77 and FORTRAN 66/V
- Comparison of HP FORTRAN 77 and FORTRAN 7X

## **Appendix D: HP Character Set**

## **Appendix E: Vector Instructions Set (VIS) Subroutines**

# **HP Pascal Programmer's Guide**

**PROGRAMMER'S SERIES: LANGUAGES**

**PART-NUMBER: 31502-90002**

**AUDIENCE: Experienced Pascal Programmers**

This manual discusses selected HP Pascal topics in detail. It explains statement interaction but does not explain every feature of HP Pascal. Some topics covered are: HP Pascal procedure options, compiler options, and how HP Pascal works on the HP-UX operating system.

## **Chapter 1: Introduction**

## **Chapter 2: Program Structure**

- Introduction
- Syntactic Structure
- Compilation Unit Structure
- External Interfaces

## **Chapter 3: Input/Output**

- Introduction
- General File Information
- Opening Files
- Associate Procedure
- Sequential Input/Output
- Textfile Input/Output
- Direct Input/Output
- Closing Files

## **Chapter 4: Predefined HP Pascal Data Types**

- Introduction
- Values of Predefined Constants
- Ranges of Predefined Data Types
- Shortint
- Predefined Modules

## **Chapter 5: Allocation and Alignment**

- Introduction
- Allocation, Alignment, and Packing Algorithm
- Unpacked Variables
- Packed Variables
- Arrays
- Records
- Packed Arrays
- Packed Records
- Crunched Arrays and Records
- Crunched Sets
- Enumerations and Subranges
- Files
- Sets
- Strings

## **Chapter 6: Dynamic Variables**

- Introduction
- Globalanyptr Variables
- Localanyptr Variables
- New Procedure
- Dispose Procedure
- Mark and Release Procedures
- P\_\_getheap and P\_\_rtnheap Procedures
- Getheap and Rtnheap Procedures

## **Chapter 7: Parameters**

- Introduction
- Value vs. Reference Parameters
- ANYVAR Parameters
- READONLY Parameters
- Conformant Array Parameters
- Routines as Parameters
- Hidden Parameters

## **Chapter 8: Procedure Options**

- Introduction
- EXTENSIBLE
- DEFAULT\_PARMS
- UNCHECKABLE\_\_ANYVAR
- UNRESOLVED
- INLINE

## **Chapter 9: External Routines**

- Introduction
- EXTERNAL Directive
- Calling C from HP Pascal
- Calling COBOL II from HP Pascal
- Calling FORTRAN 77 from HP Pascal
- Calling FORTRAN/3000 from HP Pascal
- Calling SPL from HP Pascal
- Switch Stubs
- How Non-Pascal Programs Call Pascal Routines

## **Chapter 10: Intrinsic**

- Introduction
- Using Intrinsic
- Defining Intrinsic
- How to Build or Change an Intrinsic File

## **Chapter 11: Error Recovery and Debugging**

- Introduction
- Error Recovery
- ARITRAP and HPENBLTRAP Intrinsic
- XLIBTRAP Intrinsic
- XARITRAP Intrinsic
- XCONTRAP Intrinsic
- HPTOOLSET/XL and Symbolic Debuggers

## **Chapter 12: The Optimizer**

- Introduction
- When to Use the Optimizer
- Invoking the Optimizer

## **Chapter 12: The Optimizer (cont'd)**

- Level One Optimization

- Level Two Optimization

- Optimizer Assumptions

- Writing Programs That are Easily Optimized

- What to Do if the Optimized Program Fails

## **Appendix A: Compiler Options**

- Introduction

- System Independent Options

- System Dependent Options

## **Appendix B: HP-UX Dependencies**

- Introduction

- System Dependent Features

- HP-UX Extensions

- Compiling, Linking, and Running Your Program

## **Appendix C: Compiler Limits and Values**

## **Appendix D: HP Pascal Error Messages**

## **Appendix E: Undetected Errors**

# **HP Pascal Quick Reference Guide**

**PROGRAMMER'S SERIES: LANGUAGES**

**PART-NUMBER: 31502-90003**

**AUDIENCE: HP Pascal Programmers**

The quick reference guide gives the syntax of every HP Pascal statement, including restrictions on statement parameters. It does not explain statements or concepts, as it is intended only to refresh the reader's memory for syntactic details.

## **Chapter 1: Programs**

- Compilation\_\_Unit
- Program\_\_Heading
- Block

## **Chapter 2: Declarations**

## **Chapter 3: Statements**

## **Chapter 4: Expressions**

- Expression
- Selector
- Pointer\_\_Dereference

## **Chapter 5: Language Elements**

- Reserved Words
- Special Symbols
- Identifier
- Unsigned\_\_Integer
- Signed\_\_Integer
- Unsigned\_\_Real
- Signed\_\_Real
- String\_\_Literal

## **Chapter 6: Input/Output**

- File Procedures and Functions

## **Chapter 7: Predefined Procedures and Functions**

- System Independent
- System Dependent

## **Chapter 8: System Programming Extensions**

- System Programming Extension Reserved Words
- System Programming Extension Predefined Identifiers
- TRY\_\_RECOVER\_\_Statements
- Type
- Expression
- Option Specification

## **Appendix A: Compiler Options**

- System Independent Compiler Options
- HP Standard Options
- HP Pascal Options
- System Programming Options
- System Dependent Compiler Options
- MPE XL Options
- MPE XL and HP-UX Options
- HP-UX Options

## **Appendix B: Intrinsic**

## **Appendix C: HP Pascal and Other Languages**

- EXTERNAL Directive
- Calling C from HP Pascal
- Calling COBOL II from HP Pascal
- Calling FORTRAN 77 from HP Pascal
- Calling SPL from HP Pascal

# **HP Pascal Reference Manual**

## **PROGRAMMER'S SERIES: LANGUAGES**

**PART-NUMBER:** 31502-90001

**AUDIENCE:** Pascal Programmers

This manual gives the syntax, semantics and simple examples of each statement. It does not contain tutorial material or examples of how the statements interact with each other.

### **Chapter 1: Introduction**

Extensions to ANSI/IEEE and ISO Pascal

### **Chapter 2: Language Elements**

BASIC SYMBOLS  
Reserved Words  
Identifiers  
Numbers  
Comments  
Separators  
String Literals

### **Chapter 3: Data Types**

Simple Types  
Structured Types  
Pointer Types  
Type Compatibility  
Assignment Compatibility

### **Chapter 4: Expressions**

Operands  
Operators

### **Chapter 5: The Declaration Section**

Constant Definition  
Label Declaration  
Type Definition  
Variable Declaration

### **Chapter 6: Statements**

# **Series 800 HP-UX Real-Time Programming Manual**

## **PROGRAMMER'S SERIES**

**PART-NUMBER:** 92453-90003

**AUDIENCE:** Experienced C Programmers

This manual explains how to use the real-time features of HP-UX that are a superset of System V features such as priority scheduling, asynchronous I/O, reliable signals and preallocation of disc space. It also discusses standard AT&T features that can be useful in real-time programs such as process locking, shared memory, semaphores, and messages.

### **Chapter 1: Introduction**

- What is Real Time?
- Adding Real-Time Capability to the UNIX Operating System
- Real-Time Features in HP-UX
- Real-Time Programming with HP-UX Features

### **Chapter 2: Privilege Groups**

- Introduction
- Available Privileges
- Retrieving Your Group Access List
- Retrieving Privileges Assigned to Your Groups
- Removing Privileges From a Process With `setgroups(2)`
- Chapter Summary

### **Chapter 3: Priority Scheduling**

- Introduction
- The `RTPRIO` Privilege
- Setting or Changing the Real-Time Priority of a Process
- Reading the Real-Time Priority of a Process with `rtprio(1)`
- Setting the Priority of a Real-Time Process to be Time-Shared
- The Effect of `nice(1)` on Real-Time Priorities
- Chapter Summary

### **Chapter 4: Memory Locking**

- Introduction
- Memory Locking and the HP-UX Process Model
- Locking With `plock(2)`
- Locking With `datalock(3C)`
- Locking Shared Memory Segments with `shmctl(2)`
- Chapter Summary

### **Chapter 5: Signals: Software Interrupts**

- Introduction
- Available Signals
- Sending a Signal
- Preparing to Receive a Signal
- Receiving and Handling a Signal
- Waiting for a Signal
- A Software Fault Tolerance Example Using Signals
- Chapter Summary

## **Chapter 6: Time-Based Scheduling**

- Introduction
- Time-Related Data Structures
- Time Retrieval
- Time-Scheduling Programs
- Chapter Summary

## **Chapter 7: Shared Memory**

- Introduction
- Overview of System V Interprocess Communication Facilities
- Shared Memory Segment Data Structure
- The Shared Memory Interface
- Chapter Summary

## **Chapter 8: Synchronization with Semaphores**

- Introduction
- The Semaphore Set and Semaphore Set Data Structure
- The Semaphore Set Interface
- Chapter Summary

## **Chapter 9: Messages**

- Introduction
- The Data Structure Associated with a Message Queue Identifier
- The Message Interface
- Receiving a Message on a Message Queue with msgrnd()
- A Time and Attendance Transaction Processing Example Using Messages
- Removing the Message Queue Identifier with msgctl(2)
- Chapter Summary

## **Chapter 10: Pipes**

- Introduction
- A Functional Comparison of Pipes and Names Pipes (FIFOs)
- Programming Examples Using Pipes
- Programming Examples Using FIFOs
- Using Pipes
- Using FIFOs

## **Chapter 11: System Asynchronous I/O**

- Introduction
- System Asynchronous I/O Overview
- System Asynchronous I/O Facilities, Devices and Device Drivers
- Using O\_NDELAY or FIONBIO to Do Nonblocking I/O
- Enabling a Driver to Send SIGIO when I/O is Possible
- Checking if an I/O Request Should be Issued to One or More  
    Devices with select(2)
- Chapter Summary

## **Chapter 12: Disk I/O**

- Introduction
- Getting Good File System Performance
- Optimum Raw Disk I/O Performance
- Chapter Summary

## **Appendix A: A Comparison of Real-Time Features in the RTE and HP-UX Operating Systems**

Overview

Program Control

Resource Management

Time Operations

Standard I/O

Asynchronous I/O

Interprocess Communication

Operating System and Hardware Functionality

Event Scheduling on Interrupts

Privileged Operation

## System Administrator's Series

Manual Title	Audience
<i>HP 9000 Series 800 System Administrator's Manual</i> (92453-90004)	System Administrators
<i>Installing and Updating HP-UX -- HP 9000 Series 800</i> (92453-90019)	System Administrators
<i>System Administration Basics -- A Menu-oriented Approach</i> (92453-90017)	System Administrators

# **HP 9000 Series 800 System Administrator's Manual**

## **SYSTEM ADMINISTRATOR'S SERIES**

**PART-NUMBER:** 92453-90004

**AUDIENCE:** System Administrators

This manual enables the System Administrator to perform first-time system installation and configuration and provides information for performing system administration tasks. It enables the System Administrator to tailor the operating system to make use of its resources efficiently, provides detailed information for system designers to customize their operating system, and provides training aids for the assistant System Administrator.

### **Chapter 1: Introduction**

- The System Administrator
- Responsibilities of the System Administrator
- Conventions Used in this Manual
- User Survey Form

### **Chapter 2: Getting Started**

- Installing HP-UX
- Updating HP-UX
- After Installing HP-UX
- Customizing a System
- Using the System Administration Manager

### **Chapter 3: System Startup and Shutdown**

- System Boot
- Booting Problems
- After Booting
- Login
- Changes You May Want to Make
- Shutting Down the System

### **Chapter 4: Customizing the HP-UX System**

- Setting the System Clock
- Maintaining System Security
- Creating Groups
- Setting Up the LP Spooler
- Administering UUCP

### **Chapter 5: System Administration Tasks**

- Communicating With System Users
- Adding/Removing Users
- Overview of the I/O System Device Drivers
- Adding/Removing Peripheral Devices
- Adding a CIO Expander
- Adding Terminals and Modems
- Adding a Tape Drive
- Adding Disks and Cartridge Tape Drives
- General-Purpose Instruments
- Removing Peripheral Devices

## **Chapter 5: System Administration Tasks (cont'd)**

- Access Port
- Changing and Creating System Run Levels
- Backing Up the File System
- Updating the HP-UX System

## **Chapter 6: System Accounting**

- Goals of System Accounting
- Overview of System Accounting
- Daily Usage and Installation
- Disk Space Usage Accounting
- Connect Session Accounting
- Process Accounting
- Charging Fees to Users
- Accounting Summary and Report
- Updating the Holidays File
- Fixing Corrupted Files
- Sample Accounting Shell Scripts

## **Chapter 7: System Reconfiguration**

- System Reconfiguration Summary
- The System Reconfiguration Process
- Swap Space Configuration
- Controlling Disk Use
- Creating a New File System
- Adding a New Disk
- Mounting and Unmounting File Systems

## **Chapter 8: Troubleshooting**

- System Panic
- Manual System Dump
- Using savecore
- Power Fail Recovery
- /etc/passwd File Recovery
- /dev/tty File Recovery
- Dealing With an Unresponsive Terminal
- On-Line Diagnostics
- System Activity Reporter

## **Chapter 9: System Management Concepts**

- The Superuser
- Processes
- IDs
- File System Implementation
- The HP-UX File Structure
- Memory Management

## **Appendix A Error Messages**

- ISL Error Messages
- Booting Diagnostic Error Messages
- Booting Error Messages
- Spooling Errors

## **Appendix B System Accounting Files**

Files in the /usr/adm directory

Files in the /usr/adm/acct/nite directory

Files in the /usr/adm/acct/sum directory

Files in the /usr/adm/acct/fiscal directory

## **Appendix C Using the fsck Command**

How fsck Handles Inconsistencies

## **Appendix D System Parameters**

# **Installing and Updating HP-UX -- HP 9000 Series 800**

## **SYSTEM ADMINISTRATOR'S SERIES**

**PART-NUMBER:** 92453-90019

**AUDIENCE:** System Administrators

This manual explains how to install and update the HP-UX operating system (and optional subsystems) on HP 9000 Series 800 computers.

**Chapter 1: Introduction**

**Chapter 2: Concepts**

**Chapter 3: Installing HP-UX**

**Chapter 4: Updating HP-UX**

**Chapter 5: Modifying HP-UX**

**Chapter 6: Root Disk Partitioning**

**Chapter 7: The Update Screens**

**Appendixes**

Hardware paths; release-specific procedures.

# **System Administration Basics – A Menu-oriented Approach**

## **SYSTEM ADMINISTRATOR'S SERIES**

**PART-NUMBER:** 92453-90017

**AUDIENCE:** System Administrators

This manual describes SAM, the System Administration Manager, a menu-driven package that simplifies some of the most commonly performed system administration tasks.

### **Chapter 1: Introduction**

- What is System Administration?
- Installing Your System
- Updating Your System
- What is the System Administration Manager?
- What SAM Can Do For You
- To Invoke SAM
- Tips for Using SAM

### **Chapter 2: Account Management**

- Account Administration and SAM
- What is a User?
- Why Use Passwords?
- Provide the Real Name, Too
- User Groups
- What is the Home Directory?
- What Does the Startup Program Do?
- Adding a New Account
- Deleting or Deactivating a User
- Reactivating a User
- Showing User Information
- Modifying User Information
- Adding a New Group
- Deleting a Group Account
- Showing Users in a Group
- Add or Delete Users in a Group

### **Chapter 3: File System Management**

- Maintaining the File System
- Managing the File System
- Making a New File System
- Unmounting a File System
- Listing or Enabling Swap Devices
- Checking Disk Information

### **Chapter 4: Backup and Recovery**

- Backup Considerations
- Backup and Recovery with SAM
- Performing a Full Backup
- Performing an Incremental Backup
- Setting a Schedule for an Automated Backup
- Recovering an Index of Files
- Recovering Selected Files

#### **Chapter 4: Backup and Recovery (cont'd)**

- Display Index Files

- Displaying the Logfile

- Displaying and Modifying - List of Backup Filesets

#### **Chapter 5: System Configuration**

- Adding Terminals

- Configuring the Kernel

- Converting to Long Filenames

#### **Chapter 6: Spool System Configuration**

- LP Spooler Management

- Starting and Stopping the Spool System

- Adding a Printer

- Removing a Printer

- Starting or Stopping a Printner

- Listing Printer Information

- Setting the Default Printer

#### **Chapter 7: UUCP Management**

- The UUCP Network

- UUCP Network Administration

- Showing and Modifying Device Configurations

- Adding a Device

- Removing a Device

- Showing or Modifying System Configuration

- Adding a System

- Adding or Modifying Permissions

- Removing a System

# Index

---

## Special Characters

3Com EtherSeries Networks, 3-56

## A

account management, SAM, 3-174

### ADB

command format, 3-143

debugger, 3-132

### Advanced graphics package

concepts, 3-58

control, 3-58

input, 3-58

overview, 3-58

segments and primitives, 3-58

viewing transformations, 3-58

AGP (See "Advanced graphics package")

allocation and alignment, HP Pascal, 3-159

application program migration, 3-110

### ARPA Services/9000

installing, 3-26

maintaining, 3-26

product overview, 3-26

ARPA/Berkeley Services, overview, 3-41

ARPA and Berkeley commands, 3-17

ARPA, the product, 3-19

ASCII character set, 3-45

assembler directives and pseudo-operations, 3-144

assembly language, 3-144

Awk, a programming language for manipulating data, 3-8

## B

b-spline, 3-77

Backbone LAN cable installation, 3-55

backup and recovery, SAM, 3-175

BC: an arbitrary-precision desk-calculator language, 3-135

Berkeley and ARPA commands, 3-17

Berkeley IPC, 3-29

Bourne shell, 3-134 (See also "Shells, an overview")

### BSD IPC

an overview, 3-29

using datagram sockets, 3-29

- using stream sockets, 3-29

BULK table processing

- HP SQL C, 3-86
- HP SQL COBOL, 3-88
- HP SQL Pascal, 3-96

## C

C (See "HP C")

C shell, 3-134 (See also "Shells, an overview")

cable diagrams, LAN, 3-56

cable verification, LAN, 3-55

COBOL (See "HP SQL COBOL")

code

- Kanji, 3-122
- Korean, 3-115
- Simplified Chinese, 3-124
- Traditional Chinese, 3-126

color graphics, 3-76

command syntax, HP-UX, 3-4

commands

- and application programs, 3-11
- using NL I/O, 3-116
- IQUERY, 3-100

comparison of real-time features (RTE vs. HP-UX), 3-167

compile-time diagnostic messages, 3-157

compiler options, HP Pascal, 3-161

compiling

- and running HP C programs, 3-152
- and running FORTRAN 77 programs, 3-156

components parts, HP 98196A, 3-54

configuration

- HP 27110B, 3-48
- HP 27111A, 3-50
- HP 27114A, 3-51
- HP 98196A, 3-53
- LANIC card, 3-46
- network, 3-34
- NFS, 3-39
- SNA3179G, 3-24
- SNA3770, 3-22
- SNALink, 3-23
- uucp, 3-136
- YP, 3-39

console, messages, 3-82

conversions, HP C, 3-146

converting

- FORTRAN 77 to FORTRAN 7X, 3-107
- FORTRAN 7X to FORTRAN 77, 3-107
- RTE programs to Native HP-UX, 3-112

crimp tools, emergency release for, 3-56

Cross-System NetIPC, 3-18

Cross-system NFT

- HP 1000 source file, 3-36
- HP 3000 source file, 3-36
- HP 9000 source file, 3-36
- initiator command syntax, 3-36
- PC source file, 3-36
- VAX/VMS source file, 3-36
- curses and terminfo, 3-130
- customizing the HP-UX system, 3-170

## D

- DA file names, 3-105
- data file migration, Pascal, 3-108
- data files, modify, 3-111
- data format in memory, FORTRAN 77, 3-157
- data manipulation, 3-84
  - overview, HP SQL C, 3-86
  - overview, HP SQL FORTRAN, 3-91
  - HP SQL Pascal, 3-96

## Product Line Sales/Support Key

### Key Product Line

- A** Analytical
- CM** Components
- C** Computer Systems
- E** Electronic Instruments & Measurement Systems
- M** Medical Products
- P** Personal Computation Products
- \* Sales only for specific product line
- \*\* Support only for specific product line

**IMPORTANT:** These symbols designate general product line capability. They do not insure sales or support availability for all products within a line, at all locations. Contact your local sales office for information regarding locations where HP support is available for specific products.

## HEADQUARTERS OFFICES

If there is no sales office listed for your area, contact one of these headquarters offices.
